

Application No. 51837

Permit No. 43748

STATE OF OREGON WATER RESOURCES DEPARTMENT

Application for Permit to Appropriate Surface Water

RECEIVED
AUG 23 1978
WATER RESOURCES DEPT.
SALEM, OREGON

I, Ernest Porterie
(Name of Applicant)

of Rt. 2, Box 6, Days Creek
(Mailing Address) (City)

State of Oregon, 97429 Phone No. home: 325-3874, work: 525-3901 do hereby
(Zip Code)

make application for a permit to appropriate the following described waters of the State of Oregon:

1. The source of the proposed appropriation is Wood Creek

, a tributary of Days Creek

2. The point of diversion is to be located 566 ft. S and 566 ft. W
(N. or S.) (E. or W.)

from the center corner of Sec. 35
(Public Land Survey Corner)

(If there is more than one point of diversion, each must be described)

being within the NE $\frac{1}{4}$ of the SW $\frac{1}{4}$ of

Sec. 35 Tp. 29S R. 4W, W. M., in the county of Douglas
(N. or S.) (E. or W.)

3. Location of area to be irrigated, or place of use if other than irrigation.

Township	Range	Section	List $\frac{1}{4}$ $\frac{1}{4}$ of Section	List use and/or number of acres to be irrigated
29S	4W	35	SE SW	domestic use plus $\frac{1}{5}$ acre garden irrigation. Also, nonconsumptive use for mechanical pumping by hydraulic ram.

0.005 cfs total

4. The amount of water which the applicant intends to apply to beneficial use is ~~0.0008~~
cubic feet per second... (³²⁰⁰ ≈ 500 gallons per day) (0.00412 + 0.000467 + 0.00040)
(If water is to be used from more than one source, give quantity from each)

5. The use to which the water is to be applied is ~~to domestic~~, ~~to irrigation~~,
plus additional 0.0041 cfs (2600 gallons per day) to pump domestic use water by use of hydraulic ram.

6. DESCRIPTION OF WORKS

Include dimensions and type of construction of diversion dam and headgate, length and dimensions of supply ditch or pipeline, size and type of pump and motor, type of irrigation system to adequately describe the proposed distribution system.

Gravity flow pipe to garden with a subsurface trickle system planned to use water most efficiently. Domestic supply by hydraulic ram pump and small diameter pipe (1") to supply tank for mobile home.

The pipe runs in an old ditch which used to divert all of Wood Creek for irrigation. This water was applied on what is now my land but the water right was not applied for.

The hydraulic ram is homemade by me out of 3", 1 1/2", and 1" galv. pipe with leaf spring check valve and cross check valve. Inlet head = 18 feet, Drive pipe = 60 feet of 1 1/2" plastic pipe, output head = 80 feet to a 400 gallon tank. Discharge pipe = 1".

If for domestic use state number of families to be supplied... one

- 7. Construction work will begin on or before.....
- 8. Construction work will be completed on or before... done
- 9. The water will be completely applied to the proposed use on or before... now

Application No. 57837

Permit No. 43748

Remarks: INSPECTIONS BY PRIOR APPOINTMENT ONLY

I feel this is less use per person than almost all water users and that we should be rewarded with guaranteed use of this relatively miniscule amount. Ranchers with old water rights waste water at many "cfs" because you provide no incentive to conserve this precious resource, essential to fish and swimmers. Before more dams are built, how about a moratorium on waste and no new building permits!

Application No. 57837

Permit No. 43748

Application No. 57837

Permit No. 43748

Permit to Appropriate the Public Waters of the State of Oregon

This is to certify that I have examined the foregoing application and do hereby grant the same SUBJECT TO EXISTING RIGHTS INCLUDING THE EXISTING FLOW POLICIES ESTABLISHED BY THE WATER POLICY REVIEW BOARD and the following limitations and conditions:

The right herein granted is limited to the amount of water which can be applied to beneficial use and shall not exceed 0.005 cubic feet per second measured at the point of diversion from the stream, or its equivalent in case of rotation with other water users, from Wood Creek.

The use to which this water is to be applied is domestic for one family, including the irrigation of lawn and garden not to exceed 1/2 acre in area, and operation of a ram.

If for irrigation, this appropriation shall be limited to of one cubic foot per second or its equivalent for each acre irrigated.

and shall be subject to such reasonable rotation system as may be ordered by the proper state officer.

The priority date of this permit is August 23, 1978

Actual construction work shall begin on or before December 21, 1979 and shall thereafter be prosecuted with reasonable diligence and be completed on or before October 1, 1980

Complete application of the water to the proposed use shall be made on or before October 1, 1981

WITNESS my hand this 21st day of December, 1978

James L. Peterson
Water Resources Director
