| | | | | |
| | | | | |
| | | | | |
| | | | | |
| | | | | |
| | | | | |
| | | | | |

4. The amount of water which the applicant intends to apply to beneficial use is 0.01 (1/100)

cubic feet per second.....

(If water is to be used from more than one source, give quantity from each)

5. The use to which the water is to be applied is one domestic dwelling house

6.

DESCRIPTION OF WORKS

Include dimensions and type of construction of diversion dam and headgate, length and dimensions of supply ditch or pipeline, size and type of pump and motor, type of irrigation system to adequately describe the proposed distribution system.

The head gate consists of a six (6) inch pipe placed into the point of origin of the spring underneath the road. The road runs North and South with a high bank on the East and the point of origin out of the West bank which drops off from the road. From the headgate a two (2) inch plastic pipe travels to the house a distance of approximately four hundred (400) feet. The entire pressure is provided by gravity flow.

If for domestic use state number of families to be supplied one

7. Construction work will begin on or before this system has been in operation since 1963.

8. Construction work will be completed on or before See no. 7.

9. The water will be completely applied to the proposed use on or before See no. 7.

Application No. 58117

Permit No. 43917

Remarks..... This is a gravity flow system from an unnamed spring.....
through a pipe line approximately 400 feet long to the domestic.....
dwelling which uses the water. It has been in operation since.....
1963.....

Application No. *58117*

Permit No. *43917*

Permit to Appropriate the Public Waters of the State of Oregon

This is to certify that I have examined the foregoing application and do hereby grant the same SUBJECT TO EXISTING RIGHTS INCLUDING THE EXISTING FLOW POLICIES ESTABLISHED BY THE WATER POLICY REVIEW BOARD and the following limitations and conditions:

The right herein granted is limited to the amount of water which can be applied to beneficial use and shall not exceed 0.01 cubic feet per second measured at the point of diversion from the stream, or its equivalent in case of rotation with other water users, from a spring.

The use to which this water is to be applied is domestic use for one family.

If for irrigation, this appropriation shall be limited to of one cubic foot per second or its equivalent for each acre irrigated.

and shall be subject to such reasonable rotation system as may be ordered by the proper state officer.

The priority date of this permit is November 24, 1978

Actual construction work shall begin on or before March 2, 1980 and shall thereafter be prosecuted with reasonable diligence and be completed on or before October 1, 1980

Complete application of the water to the proposed use shall be made on or before October 1, 1981

WITNESS my hand this 2nd day of March, 1979

James E. Baird
Water Resources Director
