4. The amount of water which the applicant intends to apply to beneficial use is
cubic feet per second..... 2.85 from pond A and 2.50 from pond B.
(If water is to be used from more than one source, give quantity from each)

5. The use to which the water is to be applied is Primary and Supplemental Irrigation.....

6.

DESCRIPTION OF WORKS

50'0

Include dimensions and type of construction of diversion dam and headgate, length and dimensions of supply ditch or pipeline, size and type of pump and motor, type of irrigation system to adequately describe the proposed distribution system.

The two ponds as shown on the enclosed map are natural ones. One of them is shown on the Umatilla River adjudication map.

Pond A has an existing right which I want to supplement with pond B. That Permit number is 30267. There is an pipeline between A & B so that B will flow to A.

A portion of my lands is under the Stanfield Irrigation District in which I want to be supplemented by Pond A.

In Pond A I have an 40 HP pump.

In Pond B I have an 40 HP pump.

This is an area of much sub-surface drainage, which is the main source of water in my ponds. I also re-use part of my own water which flows back into the Ponds from my irrigation th the West.

If for domestic use state number of families to be supplied

7. Construction work will begin on or before..... Completed.....

8. Construction work will be completed on or before..... Completed.....

9. The water will be completely applied to the proposed use on or before..... Completed.....

Application No. 56083

Permit No. 44378

Remarks:..... The Irrigation District is transferring water rights into the area covered under this application. This land has been assessed for water rights since the late 1940's-early 1950's by the Irrigation District.

Application No. 56083

Permit No. 44378

Application No. 56083

Permit No. 44378

Permit to Appropriate the Public Waters of the State of Oregon

This is to certify that I have examined the foregoing application and do hereby grant the same **SUBJECT TO EXISTING RIGHTS INCLUDING THE EXISTING FLOW POLICIES ESTABLISHED BY THE WATER POLICY REVIEW BOARD** and the following limitations and conditions:

The right herein granted is limited to the amount of water which can be applied to beneficial use and shall not exceed 5.35 cubic feet per second measured at the point of diversion from the stream, or its equivalent in case of rotation with other water users, from ponds A and B; being 2.85 c.f.s. from pond A, and 2.50 c.f.s. from pond B

The use to which this water is to be applied is irrigation and supplemental irrigation

If for irrigation, this appropriation shall be limited to 1/40th of one cubic foot per second or its equivalent for each acre irrigated and shall be further limited to a diversion of not to exceed 4 1/2 acre feet per acre for each acre irrigated during the irrigation season of each year, provided further that the right allowed herein shall be limited to any deficiency in the available supply of any prior right existing for the same land and shall not exceed the limitation allowed herein,

and shall be subject to such reasonable rotation system as may be ordered by the proper state officer.

The priority date of this permit is June 17, 1977

Actual construction work shall begin on or before September 27, 1980 and shall thereafter be prosecuted with reasonable diligence and be completed on or before October 1, 1981

Complete application of the water to the proposed use shall be made on or before October 1, 1982

WITNESS my hand this 27th day of September, 1979

Water Resources Director
