DESCRIPTION OF WORKS

Include dimensions and type of construction of diversion dam and headgate, length and dimensions of supply ditch or pipeline, size and type of pump and motor, type of irrigation system to adequately describe the proposed distribution system.

The recently completed Lane County Coastal Domestic Water Supply Study indicates that about 0.5 feet of storage on Woahink Lake will be required and may be obtained by regulation at the existing outlet structure. Water system engineering has not been performed, but the following components will be required:

- Intake structure and pumps
- Treatment plant and filter backwash disposal
- Transmission mains, probably along Hwy 101 on the west, and Clear Lake Road and Canary Road on the east.
- Day storage reservoirs, probably north and south
- Distribution system to meet need.
