Application No. 58553
Permit No. 44505

Remarks: The Colton Water District wishes to increase its existing water right in Permit No. 30560. The population served under the above-mentioned permit was 490. The District has greatly increased since that time and today serves a population of over 1,000 and contains 3,560 acres. It should also be mentioned that Section and Range on the original drawing of the service area and application are in error, and the application and attached map have corrected all description errors. The Colton Water District plans on upgrading its system through construction of a water treatment plant. Point of diversion will remain as is, and no reconstruction or renovation on Jackson Creek will be required. This application requests an increase of water only to provide the existing and future services with a domestic water supply.

Colton Water District # 11
Signature of Applicant
Lester A. Dexter, Chairman

This is to certify that I have examined the foregoing application, together with the accompanying maps and data, and return the same for correction and completion

In order to retain its priority, this application must be returned to the Water Resources Director with corrections on or before August 27, 1979

WITNESS my hand this 26th day of June, 1979

This instrument was first received in the office of the Water Resources Director at Salem, Oregon, on the 19th day of April, 1979, at 11:00 o'clock A.M.

Application No. 58553

Permit No. 44505

Permit to appropriate the Public Waters of the State of Oregon

This is to certify that I have examined the foregoing application and do hereby grant the same SUBJECT TO EXISTING RIGHTS INCLUDING THE EXISTING FLOW POLICIES ESTABLISHED BY THE WATER POLICY REVIEW BOARD and the following limitations and conditions:

The right herein granted is limited to the amount of water which can be applied to beneficial use and shall not exceed 1.0 cubic feet per second measured at the point of diversion from the stream, or its equivalent in case of rotation with other water users, from Jackson Creek

The use to which this water is to be applied is municipal

If for irrigation, this appropriation shall be limited to of one cubic foot per second or its equivalent for each acre irrigated

and shall be subject to such reasonable rotation system as may be ordered by the proper state officer.

The priority date of this permit is October 17, 1979

Actual construction work shall begin on or before November 14, 1980 and shall

thereafter be prosecuted with reasonable diligence and be completed on or before October 1, 1981

Extended to October 1, 1990, 10-1-93, 10-1-98

Complete application of the water to the proposed use shall be made on or before October 1, 1982

Extended to October 1, 1990, 10-1-93, 10-1-98

WITNESS my hand this 14th day of November, 1979
