

Application No. 58648

Permit No. 44507

STATE OF OREGON WATER RESOURCES DEPARTMENT

Application for Permit to Appropriate Surface Water

RECEIVED

MAY 14 1979

I, Robert Johnson (Name of Applicant)

WATER RESOURCES DEPT. SALEM, OREGON

of P.O. Box 44, Dayville (Mailing Address) (City)

State of Oregon, 97825 (Zip Code) Phone No. 987-2395 do hereby

make application for a permit to appropriate the following described waters of the State of Oregon:

1. The source of the proposed appropriation is... Waste water from Cummings ditch caught in the old Dayville ditch, &... a tributary of... tribs. John Day River...

2. The point of diversion is to be located... see attachment for location of div. pts. (N. or S.) and... ft. (E. or W.)

from the... corner of... (Public Land Survey Corner)

(If there is more than one point of diversion, each must be described)

... being within the... 1/4 of the... 1/4 of Sec. ... Tp. ... R. ... W. M., in the county of... Grant (N. or S.) (E. or W.)

3. Location of area to be irrigated, or place of use if other than irrigation.

Table with 5 columns: Township, Range, Section, List 1/4 1/4 of Section, List use and/or number of acres to be irrigated. Contains two rows of data.

0.02

4. The amount of water which the applicant intends to apply to beneficial use is 0.07 being ~~0.04~~ 0.05 ← see letter received 10-15-79 cubic feet per second from unnamed gulch, & ~~0.03~~ from waste waters through old Dayville ditch. (If water is to be used from more than one source, give quantity from each) see item #6

5. The use to which the water is to be applied is Irrigation

6. DESCRIPTION OF WORKS

Include dimensions and type of construction of diversion dam and headgate, length and dimensions of supply ditch or pipeline, size and type of pump and motor, type of irrigation system to adequately describe the proposed distribution system.

Pump at div. pt. # 2, 3/4HP pump, hoses and sprinkler heads.

See attachment for more info

Water used from POD #2 will irrigate the same lands irrigated from POD's 1 & 3. It will make up any deficiency of supply from these points.

Land west of the Dayville Ditch is to be flood irrigated from the ditch starting at POD #3

Land East of the ditch is to be flood irrigated by waste water from the Cummings Ditch as stated on the attachment.

If for domestic use state number of families to be supplied

7. Construction work will begin on or before Already completed

8. Construction work will be completed on or before Already completed

9. The water will be completely applied to the proposed use on or before Already applied

Application No. 58648

Permit No. 44507

ATTACHMENT TO APPLICATION FOR WATER RIGHT OF: Robert Johnson.

Diversion point # 1, 780' S. and 1030' W from the E $\frac{1}{4}$ corner of Section 1. being the old Dayville ditch, lying within the NE $\frac{1}{4}$ SE $\frac{1}{4}$, Sec. 1, T. 13 S. R. 26 E. The Dayville ditch, which catches waste water from lands irrigated by the Cummings ditch (South Fork John Day River water). The Dayville ditch runs northwesterly. The Cummings ditch lies to the southeast irrigating lands toward the Dayville ditch. The headgate on the dayville ditch is in a state of disrepair and no longer used. I irrigate lands to the northeast of the Dayville ditch by making cutouts at various points along the ditch, through my property.

Diversion point #2, NE $\frac{1}{4}$ SE $\frac{1}{4}$, Sec. 1, T. 13 S. R. 26 E., being 520.00 ft. S. & 1170 ft. W. from the E $\frac{1}{4}$ corner of Sec. 1., is a pumping point picking up water from the unnamed Gulch & spreading it by sprinkler.

Diversion point # 3, 726.0 ft. S. & 1551 ft. W. from the E $\frac{1}{4}$ corner of Sec. 1, T. 13 S. R. 26 E., being within the NW $\frac{1}{4}$ SE $\frac{1}{4}$, Sec. 1, is a ditch from the unnamed gulch used to flood lands west of the Dayville ditch.

Application No. 58648

Permit No. 44507

Application No. 58648

Permit No. 44507

Permit to Appropriate the Public Waters of the State of Oregon

This is to certify that I have examined the foregoing application and do hereby grant the same SUBJECT TO EXISTING RIGHTS INCLUDING THE EXISTING FLOW POLICIES ESTABLISHED BY THE WATER POLICY REVIEW BOARD and the following limitations and conditions:

The right herein granted is limited to the amount of water which can be applied to beneficial use and shall not exceed 0.07 cubic feet per second measured at the point of diversion from the stream, or its equivalent in case of rotation with other water users, from waste water collected in the old Dayville ditch and an unnamed gulch, being 0.05 c.f.s. from waste water with any deficiency in the available supply to be made up by appropriation from the unnamed gulch and 0.02 c.f.s. from the unnamed gulch

The use to which this water is to be applied is irrigation

If for irrigation, this appropriation shall be limited to 1/40th of one cubic foot per second or its equivalent for each acre irrigated and shall be further limited to a diversion of not to exceed 4.0 acre feet per acre for each acre irrigated during the irrigation season of each year

and shall be subject to such reasonable rotation system as may be ordered by the proper state officer.

The priority date of this permit is May 14, 1979

Actual construction work shall begin on or before November 14, 1980 and shall thereafter be prosecuted with reasonable diligence and be completed on or before October 1, 1981

Complete application of the water to the proposed use shall be made on or before October 1, 1982

WITNESS my hand this 14th day of November, 1979

James E. Seaman
Water Resources Director
