6.

DESCRIPTION OF WORKS

Include dimensions and type of construction of diversion dam and headgate, length and dimensions of supply ditch or pipeline, size and type of pump and motor, type of irrigation system to adequately describe the proposed distribution system.

There are three small springs which converge in an 800 gal. reservoir at the foot of our bluff. A cement dam holds back the water. The pool is protected by heavy planking which keeps the bluff and sand from sitting it. We have a Gould, on demand, electric pump of 3/4 horse power. A 3/4 inch plastic pipe leads from catch basin to pump. We irrigate with hoses.

If for domestic use state number of families to be supplied..... NIA

7. Construction work will begin on or before..... Complete

8. Construction work will be completed on or before..... " "

9. The water will be completely applied to the proposed use on or before..... IN Use

Application No. 59357

Permit No. 44652

Permit to Appropriate the Public Waters of the State of Oregon

This is to certify that I have examined the foregoing application and do hereby grant the same SUBJECT TO EXISTING RIGHTS INCLUDING THE EXISTING FLOW POLICIES ESTABLISHED BY THE WATER POLICY REVIEW BOARD and the following limitations and conditions:

The right herein granted is limited to the amount of water which can be applied to beneficial use and shall not exceed 0.006 cubic feet per second measured at the point of diversion from the stream, or its equivalent in case of rotation with other water users, from a spring area

The use to which this water is to be applied is irrigation

If for irrigation, this appropriation shall be limited to 1/80th of one cubic foot per second or its equivalent for each acre irrigated and shall be further limited to a diversion of not to exceed 2 1/2 acre feet per acre for each acre irrigated during the irrigation season of each year

and shall be subject to such reasonable rotation system as may be ordered by the proper state officer.

The priority date of this permit is September 21, 1979

Actual construction work shall begin on or before February 7, 1981 and shall thereafter be prosecuted with reasonable diligence and be completed on or before October 1, 1981

Complete application of the water to the proposed use shall be made on or before October 1, 1982

WITNESS my hand this 7th day of February, 1980
