

STATE OF OREGON WATER RESOURCES DEPARTMENT RECEIVED

Application for Permit to Appropriate Surface Water NOV 13 1979

WATER RESOURCES DEPT SALEM, OREGON

I, Rodger and Dona Schock (Name of Applicant)

of 5320 Binns Hill Road Hood River (Mailing Address) (City)

State of Oregon 97031 Phone No. 386-1338 do hereby (Zip Code)

make application for a permit to appropriate the following described waters of the State of Oregon:

1. The source of the proposed appropriation is unnamed springs located in the NW 1/4 of the SE 1/4 of Section 18, Township 2 N., Range 10 E. of the Willamette Meridian, Hood River County, Oregon

2. The point of diversion is to be located 1740 ft. N and 1280 ft. E from the S 1/4 corner of Sec. 18 T2N, Range 10 E, W.M., Hood River Co., Ore. (Public Land Survey Corner)

Which spring is located on attached Exhibit A as spring No. 2. The other point of diversion from an adjacent spring located 1720 ft. N and 1250 ft. E from the S 1/4 corner of Section 18 T2N, R 10 E. W.M., Hood River County, Oregon, which spring is located in attached map marked Exhibit A, as spring No. 1

both springs being within the NW 1/4 of the SE 1/4 of Sec. 18 Tp. 2N R. 10 E., W.M., in the county of Hood River, Oregon. (N. or S.) (E. or W.)

3. Location of area to be irrigated, or place of use if other than irrigation.

Table with 5 columns: Township, Range, Section, List 1/4 1/4 of Section, List use and/or number of acres to be irrigated. Row 1: 2N, 10 E. W.M., 17, NW 1/4, SW 1/4 of Sec. 17, exact description set forth in attached Exhibit B. Domestic use for house and irrigation is approximately 10.86 acres. The domestic use is for house located in real property described in Exhibit B and as shown on attached Exhibit C.

4. The amount of water which the applicant intends to apply to beneficial use is005

cubic feet per second for domestic use and .2715 cubic feet per second for

(If water is to be used from more than one source, give quantity from each)

irrigation purpose for 10.86 acres From Spring No. 1, as the primary source. Spring No. 2 is to be the alternate, supplementary source.

5. The use to which the water is to be applied is domestic and irrigation uses.

6.

DESCRIPTION OF WORKS

Include dimensions and type of construction of diversion dam and headgate, length and dimensions of supply ditch or pipeline, size and type of pump and motor, type of irrigation system to adequately describe the proposed distribution system.

There is a spring house in the nature of a catch basin made out of rocks and cement and has the approximate dimensions of 8' x 20'.

There is a wooden roof covering the spring house. There is presently a 4' pipe which diverts the water from the water box and it travels by gravity to supply water to applicants home for domestic use and to the remaining acreage for irrigation purposes, as shown on Exhibit C.

As to Spring No. 2, alternate source, it will be connected to spring in event necessary to have sufficient water for applicants.

If for domestic use state number of families to be supplied one (1) family to be served

7. Construction work will begin on or before N/A - the spring house has been completed

8. Construction work will be completed on or before the construction, i.e. spring house, has been completed.

9. The water will be completely applied to the proposed use on or before the water has already been applied

Application No. 59499

Permit No. 44720

Remarks:

The water from Indian Creek is intended to be used on a seasonal basis with the water from the springs for which application is being made. The Spring is to be the primary use, Indian Creek to be the secondary back-up source. Water from Indian Creek to irrigate lands, as secondary source, over that area hatched in Blackton Exhibit C, by diverting water from creek with pipe to flow over lands. Four (4) acres of land is seasonally irrigated with water from Indian Creek.

Permit No. 44720.....

44720

Application No. 59499

Permit No. 44720

Permit to Appropriate the Public Waters of the State of Oregon

This is to certify that I have examined the foregoing application and do hereby grant the same SUBJECT TO EXISTING RIGHTS INCLUDING THE EXISTING FLOW POLICIES ESTABLISHED BY THE WATER POLICY REVIEW BOARD and the following limitations and conditions:

The right herein granted is limited to the amount of water which can be applied to beneficial use and shall not exceed 0.145 cubic feet per second measured at the point of diversion from the stream, or its equivalent in case of rotation with other water users, from spring No. 1 with any deficiency in the available supply from spring No. 1 to be made up by diversion from spring No. 2

The use to which this water is to be applied is domestic use for one family and irrigation, being 0.005 c.f.s. for domestic use and 0.14 c.f.s. for irrigation

If for irrigation, this appropriation shall be limited to 1/80th of one cubic foot per second or its equivalent for each acre irrigated and shall be further limited to a diversion of not to exceed 3.0 acre feet per acre for each acre irrigated during the irrigation season of each year

and shall be subject to such reasonable rotation system as may be ordered by the proper state officer.

The priority date of this permit is November 13, 1979

Actual construction work shall begin on or before April 3, 1981 and shall thereafter be prosecuted with reasonable diligence and be completed on or before October 1, 1982

Complete application of the water to the proposed use shall be made on or before October 1, 1983

WITNESS my hand this 3rd day of April, 1980

James E. Loran
Water Resources Director
