and discharge. (Peabody Barnes Model SP 155) Suction lift 3 ft., discharge 20 ft
= 23 ft. 40 ft sprinklers draw 9 GPM & with a maximum of six in use at
a time, will be within the capacity of the pump. Maximum point from the
pump is approximately 335 ft. Mainline pipe to be 1 1/2" plastic with
galv. 1" and 3/4" risers.

If for domestic use state number of families to be supplied..... N/A

7. Construction work will begin on or before July 1, 1980

8. Construction work will be completed on or before October 1, 1980

9. The water will be completely applied to the proposed use on or before October 1, 1980

Application No. 59707

Permit No. 44836

Remarks: Please refer to application no. 52515 and permit no. 39637 per my telephone conversation with your office, on 12/20/79, and your letter dated 12/28/79. I appreciate the fact that you can use my existing file for the legal description and mapping for completing this application. The enclosed sketch (2 copies) more nearly delineates my current thinking than the one in the file. Please note that the point of diversion has been changed about 42 ft. west of the original application. I am also enclosing the signed request for cancellation of my original application and permit. Thank you for your assistance.

Signature of Applicant

Ralph M. Ketch

This is to certify that I have examined the foregoing application, together with the accompanying maps and data, and return the same for.....

In order to retain its priority, this application must be returned to the Water Resources Director with corrections on or before, 19.....

WITNESS my hand this day of, 19.....

Water Resources Director

This instrument was first received in the office of the Water Resources Director at Salem, Oregon, on the 14th day of January, 1980, at 8:00 o'clock A.M.

Application No. 59707

Permit No. 44836

10000

Permit to Appropriate the Public Waters of the State of Oregon

This is to certify that I have examined the foregoing application and do hereby grant the same SUBJECT TO EXISTING RIGHTS INCLUDING THE EXISTING FLOW POLICIES ESTABLISHED BY THE WATER POLICY REVIEW BOARD and the following limitations and conditions:

The right herein granted is limited to the amount of water which can be applied to beneficial use and shall not exceed 0.01 cubic feet per second measured at the point of diversion from the stream, or its equivalent in case of rotation with other water users, from Rogue River

The use to which this water is to be applied is irrigation

If for irrigation, this appropriation shall be limited to 1/80th of one cubic foot per second or its equivalent for each acre irrigated and shall be further limited to a diversion of not to exceed 4 1/2 acre feet per acre for each acre irrigated during the irrigation season of each year

and shall be subject to such reasonable rotation system as may be ordered by the proper state officer.

The priority date of this permit is January 14, 1980

Actual construction work shall begin on or before May 21, 1981 and shall thereafter be prosecuted with reasonable diligence and be completed on or before October 1, 1982

Complete application of the water to the proposed use shall be made on or before October 1, 1983

WITNESS my hand this 21st day of May, 1980
