Application No. 59767

Permit No. 44923

Permit to appropriate the Public Waters of the State of Oregon

This is to certify that I have examined the foregoing application and do hereby grant the same SUBJECT TO EXISTING RIGHTS INCLUDING THE EXISTING FLOW POLICIES ESTABLISHED BY THE WATER POLICY REVIEW BOARD and the following limitations and conditions:

The right herein granted is limited to the amount of water which can be applied to beneficial use and shall not exceed 4.62 cubic feet per second measured at the point of diversion from the stream, or its equivalent in case of rotation with other water users, from South Fork Little Butte Creek and reservoir to be constructed under application No. R-59768, permit No. R-8146 with any deficiency in the available supply from South Fork Little Butte Creek to be made up from the North Fork Little Butte Creek

The use to which this water is to be applied is temperature control

If for irrigation, this appropriation shall be limited to of one cubic foot per second or its equivalent for each acre irrigated

The permittee shall record and submit annually to the Water Resources Department all pertinent data pertaining to use of water for temperature control on forms furnished

and shall be subject to such reasonable rotation system as may be ordered by the proper state officer.

The priority date of this permit is February 7, 1980

Actual construction work shall begin on or before July 14, 1981 and shall

thereafter be prosecuted with reasonable diligence and be completed on or before October 1, 1982 Extended to Oct. 1985

Complete application of the water to the proposed use shall be made on or before October 1, 1983 Extended to Oct. 1985

WITNESS my hand this 14th day of July, 1980

James E. Larson Water Resources Director
