6.

DESCRIPTION OF WORKS

Include dimensions and type of construction of diversion dam and headgate, length and dimensions of supply ditch or pipeline, size and type of pump and motor, type of irrigation system to adequately describe the proposed distribution system.

The will be pumping water directly from the main Thompson River. At present we will be using our five horse motor and a four inch mainline.

The will be using a sprinkler type system.

If for domestic use state number of families to be supplied

7. Construction work will begin on or before August 1980

8. Construction work will be completed on or before August 1981

9. The water will be completely applied to the proposed use on or before August 1982

Application No. 60320

Permit No.

15156

Remarks: As soon as the engineering on a new system is completed and three phase power furnished, we will be using a larger motor and system.

This permit, when issued, is for the beneficial use of water. By law, the land use associated with this water use must be in compliance with statewide land-use goals and any local acknowledged land-use plan. It is possible that the land use you propose may not be allowed if it is not in keeping with the goals and the acknowledged plan. Your city or county planning agency can advise you about the land-use plan in your area.
