DESCRIPTION OF WORKS

Include dimensions and type of construction of diversion dam and headgate, length and dimensions of supply ditch or pipeline, size and type of pump and motor, type of irrigation system to adequately describe the proposed distribution system.

Propose to set up on the bank, located within a pump house, a one (1) h.p. jet pump to obtain water from river and pumping up to home site which is approximately 1,200 feet, (thru 1 1/4" PVC pipe with 200 pound test) - to the site for the reservoir and pressure tank, at the home site. Would then put in filtering system and 3/4 h.p. pump for use in pumping from the reservoir.

Attached is copy of the major land partition approved 5/25/79. This shows legal description of all three (3) parcels. Also enclose a plat of this major land partition of the three parcels. As noted, this reflects location of proposed water line from the river to the proposed location site of the home in PARCEL 2. It is for parcel # 2 that I have purchased and am applying for a permit.

Remarks: .....

This permit, when issued, is for the beneficial use of water. By law, the land use associated with this water use must be in compliance with statewide land-use goals and any local acknowledged land-use plan. It is possible that the land use you propose may not be allowed if it is not in keeping with the goals and the acknowledged plan. Your city or county planning agency can advise you about the land-use plan in your area.
