

Application No. 61447

Permit No. 45649

STATE OF OREGON WATER RESOURCES DEPARTMENT

Application for Permit to Appropriate Surface Water

MAR 26 1981

WATER RESOURCES DEPT
SALEM, OREGON

I, Benjamin S. Crisp and Mildred L. Crisp
(Name of Applicant)

of Box 187, Milton-Freewater,
(Mailing Address) (City)

State of Oregon, 97862 Phone No. (503) 558-3707 do hereby
(Zip Code)

make application for a permit to appropriate the following described waters of the State of Oregon:

1. The source of the proposed appropriation is East Prong Spring Branch
a tributary of Walla Walla river

2. The point of diversion is to be located 26 ft. N and 600 ft. West
(N. or S.) (E. or W.)
from the S.E. corner of see map inclosed NW 1/4 Sec. 23
(Public Land Survey Corner)

(If there is more than one point of diversion, each must be described)

being within the SE 1/4 of the NW 1/4 of
Sec. 23 Tp. 6 N R. 35, W. M., in the county of Umatilla
(N. or S.) (E. or W.)

3. Location of area to be irrigated, or place of use if other than irrigation.

Township	Range	Section	List 1/4 1/4 of Section	List use and/or number of acres to be irrigated
6 N	35	23 B	S.E N.W.	2 ACRES irrigation + stock water.

4. The amount of water which the applicant intends to apply to beneficial use is ~~5.61 cfs~~ ^{3/80} 1.0 cubic feet per second P.R. ACRE (Approx. 16.8 gallons per acre.) OR 33.6 gals./min.
(If water is to be used from more than one source, give quantity from each)
 + 50 gal. per day stock water.

5. The use to which the water is to be applied is Supplemental 33.6 gals. Irrigation and stock water.
 + stock water 50 gals. per day

6. DESCRIPTION OF WORKS

Include dimensions and type of construction of diversion dam and headgate, length and dimensions of supply ditch or pipeline, size and type of pump and motor, type of irrigation system to adequately describe the proposed distribution system.

Will use existing point of diversion dam, but will install new diversion headgate, because we want to use pipe instead of the open ditch. An aluminum box 2' X 5' with 3' diagonal screen with headgate to close and open 2' from open end of box where the water flows into it. A 12" PVC pipe will be attached to other end of aluminum box for 40' and then reduce to 8" PVC pipe for another forty feet and then reduce to 6" PVC pipe will continue through the path of the old ditch line with 4 or 5 outlets and end drain stop. The line will be laid for gravity flow throughout and the outlets will flow into troughs and ditches at various points for stock water and irrigation. Any run off water will go back into East Prong Spring Branch creek. see diagram.

Primary water right no. cert. # 12736 L.W.W. Riv.

- If for domestic use state number of families to be supplied
- 7. Construction work will begin on or before 4-1-81
 - 8. Construction work will be completed on or before 4-1-82
 - 9. The water will be completely applied to the proposed use on or before 4-1-83

Application No. 61447 Permit No. 45649

Remarks: When we purchased this property in 1969, we undertook. We had a water right from the ditch that runs through our place, also about 3yrs. ago when I was talking to the Ore. Watermaster when I got the papers for Eldin Reed so he could change his point of diversion onto his own place, he thought so too. Mr. Reed didn't use the ditch at all last year but in talking to him a few days ago he informed us we did not have any water right there, so on inquiring at the local office, we truly don't!!!

We have our three stallions corrals, orchard, garden, berries and grapes all between the ditch and E. Prong Spring Branch creek and all would suffer greatly without water. We really need the water here for irrigation and stock water. Without the water running in the ditch we don't have any sub-irrigation either. Your consideration greatly appreciated,

This permit, when issued, is for the beneficial use of water. By law, the land use associated with this water use must be in compliance with statewide land-use goals and any local acknowledged land-use plan. It is possible that the land use you propose may not be allowed if it is not in keeping with the goals and the acknowledged plan. Your city or county planning agency can advise you about the land-use plan in your area.
