Remarks: The water I desire to appropriate is found in a strata of gravel
on land belonging to Hood River County, extending 250 ft. east from the boundary
of my land. It was developed at the point marked spring by the county digging
gravel. The indications are that the water is deposited in this gravel from
the irrigation of land higher up. My request for appropriation covers what
I may be able to develop in the future from this gravel strata as well as that
already developed. It is now draining onto my place and I am forced to protect
myself from it and hence propose to use it for irrigation.
