Remarks: These applicants intend to use surplus water from an appropriation heretofore made by one Adam Kolb for water from the municipal reservoir. Kolb is unable to use it all and at the lower end of his place it runs into a natural swale (Kolb-Dean Gulch), which these applicants use to convey the water herein applied for to their lands. This swale runs directly to the Dean property (Block 15, C M Kelloggs Add.), but Laughlin taps the swale about 1/8 mile below the reservoir and carries the same through a ditch about two plow furrows wide to his property (Blks. 16, 17, 18, 19, of Kelloggs' Add. and Blk. 3 and F¹/₂ of Blk. 6 of Sallys' Add.) See rough sketch herewith. This water herein appropriated has been used upon the premises through this draw for the past 15 years, ever since the construction of the city reservoir, and there will be no necessity of any construction of any nature.

STATE OF OREGON, } County of Marion, } ss.

This is to certify that I have examined the foregoing application and do hereby grant the same, subject to the following limitations and conditions: If for irrigation, this appropriation shall be limited to one-eightieth of one cubic foot per second, or its equivalent, for each acre irrigated, and shall be subject to such reasonable rotation system as may be ordered by the proper state officer. The right herein granted is limited to the appropriation of the overflow or surplus waters of the Municipal Reservoir of the City of Baker for irrigation purposes, and is also limited to the water available at the proposed point of diversion and does not carry with it the right to divert water from the stream from which the waste water is diverted, nor the right to require the wasteful use of water by others.

The amount of water appropriated shall be limited to the amount which can be applied to beneficial use and not to exceed 0.16 cubic feet per second, or its equivalent in case of rotation. The priority date of this permit is September 10, 1920.

Actual construction work shall begin on or before October 12, 1921 and shall thereafter be prosecuted with reasonable diligence and be completed on or before June 1, 1922

Complete application of the water to the proposed use shall be made on or before October 1, 1923

WITNESS my hand this 12th day of October, 1920 Percy A Cupper State Engineer.

Permits for power development are subject to the limitation of franchise as provided in Section 6633, Lord's Oregon Laws, and the payment of annual fees as provided in Chapter 213, Session Laws of 1915.
