The permittee shall, prior to commencing the diversion of water under this permit, install a regulating headgate and measuring device approved by the watermaster. Provided further that the appropriation allowed herein shall be subject to the proper maintenance of said headgate and measuring device.

Actual construction work shall begin on or before July 18, 1989, and be completed on or before October 1, 1990. Complete application of the water to the use shall be made on or before October 1, 1991.

This permit is for the beneficial use of water. By law, the land use associated with this water use must be in compliance with statewide land-use goals and any local acknowledged land-use plan. It is possible that the land use you propose may not be allowed if it is not in keeping with the goals and the acknowledged plan. Your city or county planning agency can advise you about the land-use plan in your area.

This appropriation is subject to minimum flows established by the Water Resources Commission with an effective date prior to this permit.

Issued this date, JULY 18, 1988.
