Remarks: About the year, 1870, David Patterson, the original homesteader, con-
structed a ditch and irrigated for a number of years (until he sold) the south
three acres of the land included in this application, and he irrigated the other
10 acres without a regular system of ditches, depending on the spreading out of
the flood waters. Later his son, Newton Patterson, similarly irrigated the land
from 1899 to 1906; George Bauer from 1906 to 1915, and I, Ray W Angell, as present
owner, from 1915 to the present time, ditch has washed out several times and has
been repaired, and for the last four or five years I have not been able to get
the flood waters because of excessive use of water higher up the creek, and have
not had the benefit of as much irrigation as the ditches would provide, and as I
was ready and able to use, my father, Oscar F Angell, A Patterson, and others
living above me on the creek, all having similar troubles. I make this applica-
tion in addition to one before the State Water Board.
