

STATE OF OREGON

COUNTY OF BAKER

PERMIT TO APPROPRIATE THE PUBLIC WATERS

THIS PERMIT IS HEREBY ISSUED TO

THOMAS T. MCCORD
AND DONALD L. MARSHALL
P.O. BOX 872
HALFWAY, OREGON 97834

(541) 742-6565

The specific limits for the use are listed below along with conditions of use.

APPLICATION FILE NUMBER: S-73468

SOURCE OF WATER: AN UNNAMED SPRING, TRIBUTARY OF MCMULLEN SLOUGH

PURPOSE OR USE: LIVESTOCK

MAXIMUM FLOW ALLOWED: 0.01 CUBIC FOOT PER SECOND

PERIOD OF USE: YEAR ROUND

DATE OF PRIORITY: JULY 6, 1993

POINT OF DIVERSION LOCATION: NE 1/4 NW 1/4, SECTION 8, T8S, R46E, W.M.;
336 FEET SOUTH & 829 FEET WEST FROM THE N 1/4 CORNER OF SECTION 8

THE PLACE OF USE IS LOCATED WITHIN THE NE 1/4 NW 1/4, SECTION 8,
TOWNSHIP 8 SOUTH, RANGE 46 EAST, W.M.

Measurement recording and reporting conditions:

- A. The Director may require the permittee to install a meter or other suitable measuring device as approved by the Director. If the Director notifies the permittee to install a meter or other measuring device, the permittee shall install such device within the period stated in the notice. Such installation period shall not be less than 90 days unless special circumstances warrant a shorter installation period. Once installed, the permittee shall maintain the meter or measuring device in good working order and shall allow the watermaster access to the meter or measuring device. The Director may provide an opportunity for the permittee to submit alternative measuring procedures for review and approval.

SEE NEXT PAGE

- B. The Director may require the permittee to keep and maintain a record of the amount (volume) of water used and may require the permittee to report water use on a periodic schedule as established by the Director. In addition, the Director may require the permittee to report general water use information, the periods of water use and the place and nature of use of water under the permit. The Director may provide an opportunity for the permittee to submit alternative reporting procedures for review and approval.

For the period April 16 through September 30, the use of water allowed herein may be made only at times when waters from the unnamed spring would not otherwise flow into a tributary of the Powder River.

If the riparian area is disturbed in the process of developing a point of diversion, the permittee shall be responsible for restoration and enhancement of such riparian area to the satisfaction of the Oregon Department of Fish & Wildlife.

The use may be restricted if the quality of the source stream, namely the Powder River, decreases to the point that it no longer meets state and federal water quality standards due to reduced flows.

STANDARD CONDITIONS

The use shall conform to such reasonable rotation system as may be ordered by the proper state officer.

Failure to comply with any of the provisions of this permit may result in action including, but not limited to, restrictions on the use, civil penalties, or cancellation of the permit.

This permit is for the beneficial use of water without waste. The water user is advised that new regulations may require the use of best practical technologies or conservation practices to achieve this end.

By law, the land use associated with this water use must be in compliance with statewide land-use goals and any local acknowledged land-use plan.

The use of water allowed herein may be made only at times when sufficient water is available to satisfy all prior rights, including prior rights for maintaining instream flows.

The Director finds that the proposed use(s) of water described by this permit, as conditioned, will not impair or be detrimental to the public interest.

Actual construction work shall begin within one year from permit issuance and shall be completed on or before October 1, 1998. Complete application of the water to the use shall be made on or before October 1, 1999.

Issued June 7, 1996

for 

Martha O. Pagel Director
Water Resources Department
