

STATE OF OREGON

COUNTY OF LANE

PERMIT TO APPROPRIATE THE PUBLIC WATERS

THIS PERMIT IS HEREBY ISSUED TO

LESLIE G. & VIRGINIA S. BLUM
42296 HOLDEN CREEK LANE
SPRINGFIELD, OREGON 97478-8649

PHONE: (541) 896-0848

The specific limits and conditions of the use are listed below.

APPLICATION FILE NUMBER: S-84014

SOURCE OF WATER: WILLAMETTE BASIN PROJECT, TRIBUTARY OF MCKENZIE RIVER,
CONSTRUCTED UNDER R-5363

PURPOSE OR USE: IRRIGATION OF 2.74 ACRES

MAXIMUM VOLUME ALLOWED: 6.85 ACRE-FEET PER YEAR

PERIOD OF USE: MARCH 1 THROUGH OCTOBER 31, OR AS FURTHER LIMITED BY
CONTRACT WITH BUREAU OF RECLAMATION

DATE OF PRIORITY: DECEMBER 7, 1998

POINT OF DIVERSION LOCATION: SE 1/4 NW 1/4, SECTION 16, T17S, R1E, W.M.;
1295 FEET SOUTH & 474 FEET WEST FROM N1/4 CORNER, SECTION 16

The amount of water used for irrigation under this right, together with
the amount secured under any other right existing for the same lands, is
limited to a diversion of 2.5 acre-feet for each acre irrigated during
the irrigation season of each year.

THE PLACE OF USE IS LOCATED AS FOLLOWS:

NE 1/4 NW 1/4 2.14 ACRES
SE 1/4 NW 1/4 0.6 ACRES
SECTION 16
TOWNSHIP 17 SOUTH, RANGE 1 EAST, W.M.

Measurement, recording and reporting conditions:

- A. The Director may require the permittee to install a meter or
other suitable measuring device as approved by the Director.

Application S-84014 Water Resources Department

PERMIT 53599

If the Director notifies the permittee to install a meter or other measuring device, the permittee shall install such device within the period stated in the notice. Such installation period shall not be less than 90 days unless special circumstances warrant a shorter installation period. Once installed, the permittee shall maintain the meter or measuring device in good working order and shall allow the watermaster access to the meter or measuring device. The Director may provide an opportunity for the permittee to submit alternative measuring procedures for review and approval.

- B. The Director may require the permittee to keep and maintain a record of the amount (volume) of water used and may require the permittee to report water use on a periodic schedule as established by the Director. In addition, the Director may require the permittee to report general water use information, the periods of water use and the place and nature of use of water under the permit. The Director may provide an opportunity for the permittee to submit alternative reporting procedures for review and approval.

The permittee shall install, maintain, and operate fish screening and by-pass devices as required by the Oregon Department of Fish and Wildlife to prevent fish from entering the proposed diversion. The required screen is to be in place and functional prior to diversion of any water.

The use of water under this right is subject to the terms and conditions of contract No. 9-07-10-W1227, or a satisfactory replacement, between the Bureau of Reclamation and the applicant, a copy of which is on file in the records of the Water Resources Department.

If the riparian area is disturbed in the process of developing a point of diversion, the permittee shall be responsible for restoration and enhancement of such riparian area.

The use may be restricted if the quality of the source stream or downstream water decrease to the point that those waters no longer meet state or federal water quality standards due to reduced flows.

STANDARD CONDITIONS

The use shall conform to such reasonable rotation system as may be ordered by the proper state officer.

Failure to comply with any of the provisions of this permit may result in action including, but not limited to, restrictions on the use, civil penalties, or cancellation of the permit.

This permit is for the beneficial use of water without waste. The water user is advised that new regulations may require the use of best practical technologies or conservation practices to achieve this end.

By law, the land use associated with this water use must be in compliance with statewide land-use goals and any local acknowledged land-use plan.

The use of water allowed herein may be made only at times when sufficient water is available to satisfy all prior rights, including prior rights for maintaining instream flows.

The Director finds that the proposed use(s) of water described by this permit, as conditioned, will not impair or be detrimental to the public interest.

Actual construction work shall begin by June 18, 2000. Complete application of water to the use shall be made on or before October 1, 2003. Within one year after complete application of water to the proposed use, the permittee shall submit a claim of beneficial use, which includes a map and report, prepared by a Certified Water Rights Examiner (CWRE).

Issued July 30, 1999

Martha O. Pagel, Director
Water Resources Department
