NW 1/4 NE 1/4	15.7 ACRES
SW 1/4 NE 1/4	9.1 ACRES
NE 1/4 NW 1/4	38.8 ACRES
NW 1/4 NW 1/4	3.5 ACRES
SE 1/4 NW 1/4	15.2 ACRES

SECTION 31
NE 1/4 NW 1/4 1.1 ACRES
NW 1/4 NW 1/4 13.7 ACRES

SECTION 32
TOWNSHIP 25 SOUTH, RANGE 6 WEST, W.M.

The additional duty as allowed herein is for the irrigation of blueberries. Should the permittee change the type of crop, the permittee must submit evidence that demonstrates additional duty is necessary for the beneficial irrigation of the new crop. If review of the evidence demonstrates to the satisfaction of the Director that such additional duty is necessary and constitutes beneficial use without waste, the additional duty may be allowed provided all other permit conditions are met. The amount of water used under this permit shall not exceed 4.0 acre-feet per acre.

Measurement, recording and reporting conditions:

- A. Before water use may begin under this permit, the permittee shall install a meter or other suitable measuring device that measures total volume of water diverted as approved by the Director. The permittee shall maintain the meter or measuring device in good working order.
- B. The permittee shall allow the watermaster access to the meter or measuring device; provided however, where the meter or measuring device is located within a private structure, the watermaster shall request access upon reasonable notice.
- C. The Director may require the permittee to keep and maintain a record of the amount (volume) of water used and may require the permittee to report water use on a periodic schedule as established by the Director. In addition, the Director may require the permittee to report general water use information, the periods of water use and the place and nature of use of water under the permit. The Director may provide an opportunity for the permittee to submit alternative reporting procedures for review and approval.

The use of water under this right is subject to the terms and conditions of contract I-94-6, dated March 1, 2001, or a satisfactory replacement, between Douglas County and the applicant, a copy of which is on file in the records of the Water Resources Department.

The permittee shall install, maintain, and operate fish screening to prevent fish from entering the proposed diversion and install a

fishway at the point of diversion located at: NW 1/4 NW 1/4, Section 31, T25S, R6W, W.M.; 900 feet South and 240 feet East from NW Corner, Section 30. The fishway shall provide adequate upstream and downstream passage for fish. The required screens and fishways are to be in place, functional, and approved by Oregon Department of Fish and Wildlife before diversion of any water.

STANDARD CONDITIONS

The use shall conform to such reasonable rotation system as may be ordered by the proper state officer.

Failure to comply with any of the provisions of this permit may result in action including, but not limited to, restrictions on the use, civil penalties, or cancellation of the permit.

This permit is for the beneficial use of water without waste. The water user is advised that new regulations may require the use of best practical technologies or conservation practices to achieve this end.

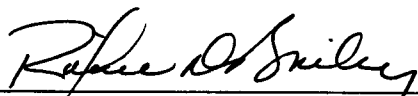

By law, the land use associated with this water use must be in compliance with statewide land-use goals and any local acknowledged land-use plan.

The use of water allowed herein may be made only at times when sufficient water is available to satisfy all prior rights, including prior rights for maintaining instream flows.

The Director finds that the proposed use(s) of water described by this permit, as conditioned, will not impair or be detrimental to the public interest.

Actual construction work shall begin within by April , 2002. Complete application of the water to the use shall be made on or before October 1, 2005. Within one year after complete application of water to the proposed use, the permittee shall submit a claim of beneficial use, which includes a map and report, prepared by a Certified Water Rights Examiner (CWRE).

Issued April 24 , 2001

Paul R. Cleary, Director
Water Resources Department
