

, STATE OF OREGON

COUNTY OF UMATILLA

PERMIT TO APPROPRIATE THE PUBLIC WATERS

THIS PERMIT IS HEREBY ISSUED TO

OREGON DEPARTMENT OF FISH AND WILDLIFE;  
ROBERT O DODGE, FAC ENGINEER 3  
PO BOX 59; 2501 SW 1 AVE  
PORTLAND, OREGON 97207

(503) 872-5299

The specific limits and conditions of the use are listed below.

APPLICATION FILE NUMBER: S-84252

SOURCE OF WATER: UMATILLA RIVER, A TRIBUTARY OF COLUMBIA RIVER

PURPOSE OR USE: FISH PROPAGATION

MAXIMUM RATE: 15.6 CUBIC FEET PER SECOND

PERIOD OF USE: FEBRUARY 1 THROUGH MAY 31

DATE OF PRIORITY: AUGUST 27, 1999

POINT OF DIVERSION LOCATION: SW  $\frac{1}{4}$  NW  $\frac{1}{4}$ , SECTION 7, T2N, R33E, W.M.; 472 FEET SOUTH & 667 FEET EAST FROM N1/16 CORNER COMMON TO SECTIONS 7 AND 12, SECTION 7

THE PLACE OF USE IS LOCATED AS FOLLOWS:

SW  $\frac{1}{4}$  NW  $\frac{1}{4}$   
SECTION 7  
TOWNSHIP 2 NORTH, RANGE 33 EAST, W.M.

Measurement, recording and reporting conditions:

- A. Before water use may begin under this permit, the permittee shall install a meter or other suitable measuring device as approved by the Director. The permittee shall maintain the meter or measuring device in good working order, shall keep a complete record of the amount of water used each month and shall submit a report which includes the recorded water use measurements to the Department annually or more frequently as may be required by the Director. Further, the Director may require the permittee to report general water use information, including the place and nature of use of water under the permit.
- B. The permittee shall allow the watermaster access to the meter or measuring device; provided however, where the meter or measuring device is located within a private structure, the watermaster shall request access upon reasonable notice.

Application S-84252 Water Resources Department

PERMIT 53775

If the riparian area is disturbed in the process of developing a point of diversion, the permittee shall be responsible for restoration and enhancement of such riparian area.

The use may be restricted if the quality of the source stream or downstream waters decrease to the point that those waters no longer meet existing state or federal water quality standards due to reduced flows.

The permittee shall install, maintain, and operate fish screening to prevent fish from entering the proposed diversion. The permittee shall also install a fishway at the obstruction that will provide adequate upstream and downstream passage for fish. The permittee may submit evidence that the Oregon Department of Fish and Wildlife (ODFW) has determined screens and/or fishways are not necessary. The required screens and fishways are to be in place, functional, and approved by ODFW before diversion of any water.

The water user shall install and maintain temperature monitoring facilities at the in-flow and out-flow points that meet DEQ requirements for temperature.

#### STANDARD CONDITIONS

The use shall conform to such reasonable rotation system as may be ordered by the proper state officer.

Failure to comply with any of the provisions of this permit may result in action including, but not limited to, restrictions on the use, civil penalties, or cancellation of the permit.

This permit is for the beneficial use of water without waste. The water user is advised that new regulations may require the use of best practical technologies or conservation practices to achieve this end.

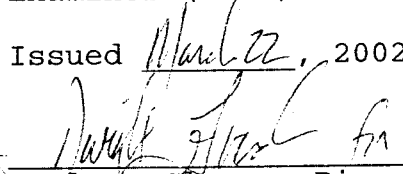

By law, the land use associated with this water use must be in compliance with statewide land-use goals and any local acknowledged land-use plan.

The use of water allowed herein may be made only at times when sufficient water is available to satisfy all prior rights, including prior rights for maintaining instream flows.

The Director finds that the proposed use(s) of water described by this permit, as conditioned, will not impair or be detrimental to the public interest.

Actual construction work shall begin within one year of permit issuance. Complete application of water to the use shall be made on or before October 1, 2006. Within one year after complete application of water to the proposed use, the permittee shall submit a claim of beneficial use, which includes a map and report, prepared by a Certified Water Rights Examiner (CWRE).

Issued March 12, 2002

  
Paul R. Cleary, Director  
Water Resources Department

NOTE: Pursuant to ORS 537.330, in any transaction for the conveyance of real estate that includes any portion of the lands described in this permit, the seller of the real estate shall, upon accepting an offer to purchase that real estate, also inform the purchaser in writing whether any permit, transfer approval order, or certificate evidencing the water right is available and that the seller will deliver any permit, transfer approval order or certificate to the purchaser at closing, if the permit, transfer approval order or certificate is available.
