

STATE OF OREGON
 COUNTY OF JACKSON

PERMIT TO APPROPRIATE THE PUBLIC WATERS

THIS PERMIT IS HEREBY ISSUED TO:

RONALD A KAY
 1421 BELLEAIRE ST
 OCEANSIDE, CA 92054

The specific limits and conditions of the use are listed below.

APPLICATION FILE NUMBER: S-86681

SOURCE OF WATER: LOST CREEK RESERVOIR, APPROVED UNDER PERMIT R-8142

PURPOSE OR USE: IRRIGATION OF 0.6 ACRE

MAXIMUM VOLUME/RATE: 2.5 ACRE FEET, LIMITED TO A MAXIMUM RATE OF 0.0125 CUBIC FOOT PER SECOND

DATE OF PRIORITY: SEPTEMBER 12, 2006

Use	Period
Irrigation	March 1 through October 31

Authorized Points of Re-Diversion:

	Twp	Rng	Mer	Sec	Q-Q	Survey Coordinates
POD #1	34 S	1 W	WM	15	NE NW	790 FEET SOUTH AND 570 FEET WEST FROM N ¼ CORNER, SECTION 15
POD #2	34 S	1 W	WM	15	NE NW	840 FEET SOUTH AND 600 FEET WEST FROM N ¼ CORNER, SECTION 15

Authorized Place of Use:

Twp	Rng	Mer	Sec	Q-Q	Acres
34 S	1 W	WM	15	NE NW	0.6

Measurement, recording and reporting conditions:

- A. Before water use may begin under this permit, the permittee shall install a meter or other suitable measuring device, as approved by the Director, at each point of diversion. The permittee shall maintain the meter or measuring device in good working order.
- B. The permittee shall allow the watermaster access to the meter or measuring device; provided however, where the meter or measuring device is located within a private structure, the watermaster shall request access upon reasonable notice.

The water user shall install, maintain, and operate fish screening and by-pass devices consistent with current Oregon Department of Fish and Wildlife (ODFW) standards. Fish screening is to prevent fish from entering the proposed diversion, while by-pass devices provide adequate upstream and downstream passage for fish. The required screen and by-pass devices are to be in place and functional, and approved in writing by ODFW prior to diversion of water. The water user may submit evidence in writing that ODFW has determined screens and/or by-pass devices are not necessary.

The use of water under this right is subject to the terms and conditions of contract No. 079E101577, or a satisfactory replacement, between the Bureau of Reclamation and the applicant, a copy of which is on file in the records of the Water Resources Department.

STANDARD CONDITIONS

1. Where two or more water users agree among themselves as to the manner of rotation in the use of water and such agreement is placed in writing and filed by such water users with the Watermaster, and such rotation system does not infringe upon such prior rights or any water user not a party to such rotation plan, the Watermaster shall distribute the water according to such agreement.
2. Failure to comply with any of the provisions of this permit may result in action including, but not limited to, restrictions on the use, civil penalties, or cancellation of the permit.
3. This permit is for the beneficial use of water without waste. The water user is advised that new regulations may require the use of best practical technologies or conservation practices to achieve this end.
4. By law, the land use associated with this water use must be in compliance with statewide land-use goals and any local acknowledged land-use plan.
5. The use of water allowed herein may be made only at times when sufficient water is available to satisfy all prior rights, including prior rights for maintaining instream flows.
6. Complete application of the water to the use shall be made on or before October 1, 2011. If the water is not completely applied before this date, and the water user wishes to continue development under the permit, the water user must submit an application for extension of time, which may be approved based upon the merit of the application.
7. Within one year after complete application of water to the proposed use, the water user shall submit a claim of beneficial use, which includes a map and report, prepared by a Certified Water Rights Examiner (CWRE).

Issued JANUARY 4, 2007

 for

Phillip C. Ward, Director
Water Resources Department
