Remarks: I have the water piped to both my house and barn and have been using it ever since completion. I own the land in which the spring is located and all the right of way and the land where water is used. The water of the spring had never been applied to beneficial use before I dug out and improved the spring and put in my pipe line. I did not then make application for a permit and did not know such was required until conferring with my neighbors since the receiving notices in the Mill Creek Water Adjudication. I have made proof on an irrigation right for 9 1/2 acres from Mill Creek
