

STATE OF OREGON

COUNTY OF BENTON

PERMIT TO APPROPRIATE THE PUBLIC WATERS

THIS PERMIT IS HEREBY ISSUED TO

GREENBERRY IRRIGATION DISTRICT
30742 VENELL PLACE
CORVALLIS, OREGON 97333

The specific limits and conditions of the use are listed below.

APPLICATION FILE NUMBER: S-84436

SOURCE OF WATER: WILLAMETTE BASIN PROJECT RESERVOIRS, UNDER PERMITS R-1625 AND R-5363

PURPOSE OR USE: IRRIGATION WITHIN DESIGNATED 10,988.9 ACRES, NOT TO EXCEED 6,300.0 ACRES PER IRRIGATION SEASON

MAXIMUM VOLUME: 7,500.0 ACRE FEET PER YEAR

PERIOD OF USE: MARCH 1 THROUGH OCTOBER 31

DATE OF PRIORITY: MAY 18, 2000

POINT OF DIVERSION LOCATION:

SWNW, SECTION 19, T13S, R4W, W.M.; 3146 FEET NORTH AND 1281 FEET EAST FROM SW CORNER, SECTION 19

The amount of water used for irrigation under this right, together with the amount secured under any other right existing for the same lands, is limited to a diversion of ONE-EIGHTIETH of one cubic foot per second and 2.5 acre-feet for each acre irrigated during the irrigation season of each year.

THE PLACE OF USE IS LIMITED TO 6300.0 ACRES WITHIN THE FOLLOWING 10988.9 ACRES:

 SECTION 35

TOWNSHIP 13 SOUTH, RANGE 5 WEST,

1. Measurement, recording and reporting conditions:

- A. Before water use may begin under this permit, the permittee shall install a totalizing flow meter at each point of diversion. The permittee shall maintain the meter(s) in good working order. The permittee shall keep a complete record of the amount of water used each month, and shall submit a report which includes the recorded water use measurements to the Department annually or more frequently as may be required by the Director. Further, the Director may require the permittee to report general water-use information, including the place and nature of use of water under the permit.

- B. The permittee shall allow the watermaster access to the meter(s); provided however, where any meter is located within a private structure, the watermaster shall request access upon reasonable notice.
2. The permittee shall install, maintain, and operate fish screening and by-pass devices consistent with current Oregon Department of Fish and Wildlife (ODFW) standards. Fish screening is to prevent fish from entering the proposed diversion while by-pass devices provide adequate upstream and downstream passage for fish. The required screen and by-pass devices are to be in place and functional, and approved in writing by ODFW prior to diversion of any water. The permittee may submit evidence in writing that ODFW has determined screens and/or by-pass devices are not necessary.
 3. There is a base map for this permit that covers 10988.9 acres. Each year, no later than April 30 or prior to appropriation of water, whichever comes first, the permittee shall submit a map to the Department that demarcates the place of use under this water right and the place of use of underlying primary water rights. The place of use shall be within the 10988.9 acres shown on the base map, and shall not exceed 6300.0 acres annually.

The annual map shall also show the place of use for irrigation water rights within Greenberry Irrigation District that are Greenberry Irrigation District water rights as well as non-Greenberry Irrigation District water rights.
 4. The use of water under this right is subject to the terms and conditions of Contract No. 089E101624, or a satisfactory replacement, between the Bureau of Reclamation and the applicant, a copy of which is on file in the records of the Water Resources Department.
 5. The permittee shall not construct, operate or maintain any dam or artificial obstruction to fish passage in the channel of the subject stream without providing a fishway to ensure adequate upstream and downstream passage for fish, unless the permittee has requested and been granted a fish passage waiver by the Oregon Fish and Wildlife Commission. The permittee is hereby directed to contact an Oregon Department of Fish and Wildlife Fish Passage Coordinator, before beginning construction of any in-channel obstruction.

STANDARD CONDITIONS

Failure to comply with any of the provisions of this permit may result in action including, but not limited to, restrictions on the use, civil penalties, or cancellation of the permit.

Where two or more water users agree among themselves as to the manner of rotation in the use of water and such agreement is placed in writing and filed by such water users with the watermaster, and such rotation system does not infringe upon such prior rights of any water user not a party to such rotation plan, the watermaster shall distribute the water according to such agreement.

If the riparian area is disturbed in the process of developing a point of diversion, the permittee shall be responsible for restoration and enhancement of such riparian area in accordance with ODFW's Fish and Wildlife Habitat Mitigation Policy OAR 635-415. For purposes of mitigation, the ODFW Fish and Wildlife Habitat Mitigation Goals and Standards, OAR 635-415, shall be followed.

The use may be restricted if the quality of the source stream or downstream waters decreases to the point that those waters no longer meet existing state or federal water quality standards due to reduced flows.

This permit is for the beneficial use of water without waste. The water user is advised that new regulations may require the use of best practical technologies or conservation practices to achieve this end.

By law, the land use associated with this water use must be in compliance with statewide land-use goals and any local acknowledged land-use plan.

The use of water allowed herein may be made only at times when sufficient water is available to satisfy all prior rights, including prior rights for maintaining instream flows.

Completion of construction and application of the water shall be made within five years of the date of permit issuance. If beneficial use of permitted water has not been made before this date, the permittee may submit an application for extension of time, which may be approved based upon the merit of the application.

Within one year after making beneficial use of water, the permittee shall submit a claim of beneficial use, which includes a map and report, prepared by a Certified Water Rights Examiner.

Issued September 8, 2009

for Phillip C. Ward, Director
Water Resources Department
