

STATE OF OREGON

COUNTY OF COOS

PERMIT TO APPROPRIATE THE PUBLIC WATERS

THIS PERMIT IS HEREBY ISSUED TO:

DANIEL E. DAVIS  
 PO BOX 1741  
 BANDON OR 97411

The specific limits and conditions of the use are listed below.

APPLICATION FILE NUMBER: S-86770

SOURCE OF WATER: RESERVOIR 4 UNDER PERMIT R-14658, RESERVOIR 1-A UNDER PERMIT R-14659, AND RESERVOIR 3 UNDER PERMIT R-14660

PURPOSE OR USE: SUPPLEMENTAL CRANBERRY USE ON 33.0 ACRES

MAXIMUM VOLUME: 106.6 ACRE FEET (AF), BEING 40.0 AF FROM RESERVOIR 4, 44.0 AF FROM RESERVOIR 1-A, AND 22.6 AF FROM RESERVOIR 3

PERIOD OF USE: YEAR-ROUND

DATE OF PRIORITY: FEBRUARY 13, 2007

**Authorized Point of Diversion:**

	Twp	Rng	Mer	Sec	Q-Q	Survey Coordinates
RESERVOIR 4	29 S	14 W	WM	6	NE SE	2575 FEET SOUTH AND 804 FEET WEST FROM NE CORNER, SECTION 6
RESERVOIR 1-A	29 S	14 W	WM	6	SE NE	1802 FEET SOUTH AND 702 FEET WEST FROM NE CORNER, SECTION 6
RESERVOIR 3	29 S	14 W	WM	6	NE NE	875 FEET SOUTH AND 680 FEET WEST FROM NE CORNER, SECTION 6

The amount of water diverted for cranberry operations, together with amounts secured under any other rights existing for the same lands, is limited as follows: for temperature control, 0.15 cubic foot per second per acre; for flood harvesting or pest control, 0.05 cubic foot per second per acre; for irrigation of cranberries, one fortieth of one cubic foot per second and 3.0 acre feet per acre for each acre irrigated during the irrigation season of each year. For irrigation of any other crop, the amount of water diverted is limited to one eightieth of one cubic foot per second and 2.5 acre feet per acre during the irrigation season of each year.

**Authorized Place of Use:**

Twp	Rng	Mer	Sec	Q-Q	Acres
29 S	14 W	WM	6	NE NE	9.4
29 S	14 W	WM	6	SE NE	16.2
29 S	14 W	WM	6	NE SE	7.4

Measurement, recording and reporting conditions:

- A. Before water use may begin under this permit, the permittee shall install a totalizing flow meter at each point of diversion. The permittee shall maintain the meter in good working order.

- B. The permittee shall allow the watermaster access to the meter; provided however, where any meter is located within a private structure, the watermaster shall request access upon reasonable notice.
- C. The Director may require the permittee to keep and maintain a record of the amount (volume) of water used, and may require the permittee to report water use on a periodic schedule as established by the Director. In addition, the Director may require the permittee to report general water-use information the periods of water use and the place and nature of use of water under the permit.
- D. The Director may provide an opportunity for the permittee to submit alternative measuring and reporting procedures for review and approval.

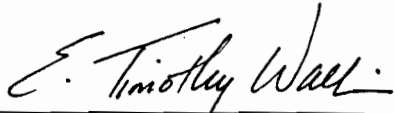

The water user shall install, maintain, and operate Oregon Department of Fish and Wildlife (ODFW) approved fish screening and by-pass devices if either or both are required by ODFW. Fish screening is to prevent fish from entering the proposed diversion, while by-pass devices provide adequate upstream and downstream passage for fish.

### STANDARD CONDITIONS

1. Failure to comply with any of the provisions of this permit may result in action including, but not limited to, restrictions on the use, civil penalties, or cancellation of the permit.
2. Where two or more water users agree among themselves as to the manner of rotation in the use of water and such agreement is placed in writing and filed by such water users with the watermaster, and such rotation system does not infringe upon such prior rights of any water user not a party to such rotation plan, the watermaster shall distribute the water according to such agreement.
3. This permit is for the beneficial use of water without waste. The water user is advised that new regulations may require the use of best practical technologies or conservation practices to achieve this end.
4. By law, the land use associated with this water use must be in compliance with statewide land-use goals and any local acknowledged land-use plan.
5. The use of water allowed herein may be made only at times when sufficient water is available to satisfy all prior rights, including prior rights for maintaining instream flows.
6. If the riparian area is disturbed in the process of developing a point of diversion, the permittee shall be responsible for restoration and enhancement of such riparian area in accordance with ODFW's Fish and Wildlife Habitat Mitigation Policy OAR 635-415. For purposes of mitigation, the ODFW Fish and Wildlife Habitat Mitigation Goals and Standards, OAR Chapter 635, Division 415, shall be followed.
7. The use may be restricted if the quality of the source stream or downstream waters decreases to the point that those waters no longer meet existing state or federal water-quality standards due to reduced flows.
8. Complete application of the water to the use shall be made on or before October 1, 2013. If the water is not completely applied before this date, and the water user wishes to continue development under the permit, the water user must submit an application for extension of time, which may be approved based upon the merit of the application.

9. Within one year after complete application of water to the proposed use, the water user shall submit a claim of beneficial use, which includes a map and report, prepared by a Certified Water Rights Examiner.

Issued August 18, 2009

for Phillip C. Ward, Director  
Water Resources Department
