

STATE OF OREGON

COUNTY OF YAMHILL

PERMIT TO APPROPRIATE THE PUBLIC WATERS

THIS PERMIT IS HEREBY ISSUED TO

HOLLIS LAND AND TIMBER LLC
13984 CHELSEA DR
LAKE OSWEGO, OR 97035

The specific limits and conditions of the use are listed below.

APPLICATION FILE NUMBER: S-87986

SOURCE AND USE OF WATER: IRRIGATION OF 278.6 ACRES FROM HOLLIS RESERVOIR, CONSTRUCTED UNDER PERMIT R-15182, A TRIBUTARY OF BRYAN CREEK; AND POND MAINTENANCE FROM AN UNNAMED STREAM, A TRIBUTARY OF BRYAN CREEK

MAXIMUM VOLUME: 100.0 ACRE FEET EACH YEAR OF STORED WATER AND 1.0 CUBIC FOOT PER SECOND FROM LIVE FLOW

PERIOD OF USE: IRRIGATION - MARCH 1 THROUGH OCTOBER 31
POND MAINTENANCE - OCTOBER 1 THROUGH JUNE 30

DATE OF PRIORITY: JUNE 11, 2014

POINT OF DIVERSION LOCATIONS:

HOLLIS RESERVOIR: SW ¼ NW ¼, SECTION 35, T2S, R3W, W.M.; 1370 FEET SOUTH AND 340 FEET EAST FROM NW CORNER, SECTION 35

POD 2: SW ¼ NW ¼, SECTION 35, T2S, R3W, W.M.; 1370 FEET SOUTH AND 340 FEET EAST FROM NW CORNER, SECTION 35

The amount of water used for irrigation under this right, together with the amount secured under any other right existing for the same lands, is limited to a diversion of ONE-EIGHTIETH of one cubic foot per second and 2.5 acre-feet for each acre irrigated during the irrigation season of each year.

THE PLACE OF USE IS LOCATED AS FOLLOWS:

<u>QQ</u>	<u>IRRIGATION</u>	<u>POND MAINTENANCE</u>
NW ¼ SW ¼	4.4 ACRES	
SW ¼ SW ¼	33.4 ACRES	
SE ¼ SW ¼	18.3 ACRES	
SW ¼ SE ¼	15.8 ACRES	
SECTION 26		
SE ¼ SE ¼	11.5 ACRES	
SECTION 27		
NE ¼ NE ¼	20.5 ACRES	X
SE ¼ NE ¼	13.9 ACRES	
SECTION 34		
NE ¼ NE ¼	0.4 ACRE	
NW ¼ NE ¼	24.9 ACRES	
NE ¼ NW ¼	40.1 ACRES	
NW ¼ NW ¼	33.1 ACRES	X
SW ¼ NW ¼	25.8 ACRES	X
SE ¼ NW ¼	36.5 ACRES	
SECTION 35		
TOWNSHIP 2 SOUTH, RANGE 3 WEST, W.M.		

Measurement devices, and recording/reporting of annual water use conditions:

- A. Before water use may begin under this permit, the permittee shall install a totalizing flow meter at each point of diversion. The permittee shall maintain the device in good working order.
- B. The permittee shall allow the watermaster access to the device; provided however, where any device is located within a private structure, the watermaster shall request access upon reasonable notice.
- C. The permittee shall keep a complete record of the volume of water diverted each month, and shall submit a report which includes water-use measurements to the Department annually or more frequently as may be required by the Director. Further, the Director may require the permittee to report general water-use information, including the place and nature of use of water under the permit.
- D. The Director may provide an opportunity for the permittee to submit alternative measuring and reporting procedures for review and approval.

Notwithstanding that Oregon Department of Fish and Wildlife has made a determination that fish screens and/or by-pass devices are not necessary at the time of permit issuance, the permittee may be required in the future to install, maintain, and operate fish screening and/or by-pass devices to prevent fish from entering the proposed diversion, and to provide adequate upstream and downstream passage for fish.

The permittee shall not construct, operate or maintain any dam or artificial obstruction to fish passage in the channel of the subject stream without providing a fishway to ensure adequate upstream and downstream passage for fish, unless the permittee has requested and been granted a fish passage waiver by the Oregon Fish and Wildlife Commission. The permittee is hereby directed to contact an Oregon Department of Fish and Wildlife Fish Passage Coordinator, before beginning construction of any in-channel obstruction.

STANDARD CONDITIONS

Failure to comply with any of the provisions of this permit may result in action including, but not limited to, restrictions on the use, civil penalties, or cancellation of the permit.

Where two or more water users agree among themselves as to the manner of rotation in the use of water and such agreement is placed in writing and filed by such water users with the watermaster, and such rotation system does not infringe upon such prior rights of any water user not a party to such rotation plan, the watermaster shall distribute the water according to such agreement.

If the riparian area is disturbed in the process of developing a point of diversion, the permittee shall be responsible for restoration and enhancement of such riparian area in accordance with ODFW's Fish and Wildlife Habitat Mitigation Policy OAR 635-415. For purposes of mitigation, the ODFW Fish and Wildlife Habitat Mitigation Goals and Standards, OAR 635-415, shall be followed.

The use may be restricted if the quality of the source stream or downstream waters decreases to the point that those waters no longer meet state or federal water quality standards due to reduced flows.

This permit is for the beneficial use of water without waste. The water user is advised that new regulations may require the use of best practical technologies or conservation practices to achieve this end.

By law, the land use associated with this water use must be in compliance with statewide land-use goals and any local acknowledged land-use plan.

The use of water allowed herein may be made only at times when sufficient water is available to satisfy all prior rights, including prior rights for maintaining instream flows.

Construction of the water system shall begin within five years of the date of permit issuance. The deadline to begin construction may not be extended. This permit is subject to cancellation proceedings if the begin construction deadline is missed.

Complete application of the water shall be made within five years of the date of permit issuance. If beneficial use of permitted water has not been made before this date, the permittee may submit an application for extension of time, which may be approved based upon the merit of the application.

Within one year after making beneficial use of water, the permittee shall submit a claim of beneficial use, which includes a map and report, prepared by a Certified Water Rights Examiner.
