

STATE OF OREGON  
COUNTY OF DOUGLAS

PERMIT TO APPROPRIATE THE PUBLIC WATERS

THIS PERMIT IS HEREBY ISSUED TO

LORETTA JOY LYNN  
217 ARROWHEAD RANCH RD  
OAKLAND OR 97462

SYLVIA M. LYNN  
213 ARROWHEAD RANCH RD  
OAKLAND OR 97462

The specific limits and conditions of the use are listed below.

APPLICATION FILE NUMBER: S-88756

DATE OF PRIORITY: MARCH 12, 2019

SOURCE OF WATER: CALAPOOYA CREEK, TRIBUTARY TO UMPQUA RIVER

PURPOSE OR USE OF THE WATER	MAXIMUM RATE	PERIOD OF USE
DOMESTIC USE FOR TWO HOUSEHOLDS	0.02 CUBIC FOOT PER SECOND	DECEMBER 1 THROUGH JUNE 30
HUMAN CONSUMPTION USE FOR TWO HOUSEHOLDS	0.01 CUBIC FOOT PER SECOND, FURTHER LIMITED TO 500 GALLONS PER DAY	JULY 1 THROUGH NOVEMBER 30

POINTS OF DIVERSION:

POD	Twp	Rng	Mer	Sec	Q-Q	Measured Distances
1	25 S	4 W	WM	7	NW NE	645 FEET SOUTH AND 1450 FEET WEST FROM NE CORNER, SECTION 7
2	25 S	4 W	WM	7	NE NE	1080 FEET SOUTH AND 410 FEET WEST FROM NE CORNER, SECTION 7

THE PLACE OF USE IS LOCATED AS FOLLOWS:

Twp	Rng	Mer	Sec	Q-Q
25 S	4 W	WM	7	NE NE

1. **Water Use Measurement, Recording, and Reporting Condition:**

- A. Before water use may begin under this permit, the permittee shall install an in-line flow restrictor at each point of diversion. The permittee shall maintain the device in good working order.
- B. The permittee shall allow the watermaster access to the device; provided however, where any device is located within a private structure, the watermaster shall request access upon reasonable notice.

- C. The permittee shall keep a complete record of the volume of water diverted each month, and shall submit a report which includes water-use measurements to the Department annually, or more frequently as may be required by the Director. Further, the Director may require the permittee to report general water-use information, including the place and nature of use of water under the permit.
- D. The Director may provide an opportunity for the permittee to submit alternative measuring and reporting procedures for review and approval.

**2. Fish Screen and Bypass Condition:**

The permittee shall install, maintain, and operate fish screening and by-pass devices consistent with current Oregon Department of Fish and Wildlife (ODFW) standards. Fish screening is to prevent fish from entering the proposed diversion while by-pass devices provide adequate upstream and downstream passage for fish. The required screen and by-pass devices are to be in place and functional prior to diversion of any water. Permittee shall operate and maintain the fish screen consistent with ODFW's operation and maintenance standards. If ODFW determines the screen is not functioning properly, and is unsuccessful in working with the permittee to meet ODFW standards, ODFW may request the Department regulate the use of water until the Department receives notification from ODFW that the fish screen is functioning properly. The permittee is hereby directed to schedule a consultation with an ODFW Fish Screening Coordinator.

**3. Riparian Condition:**

If the riparian area is disturbed in the process of developing a point of diversion, the permittee shall be responsible for restoration and enhancement of such riparian area in accordance with ODFW's Fish and Wildlife Habitat Mitigation Policy OAR 635-415. For purposes of mitigation, the ODFW Fish and Wildlife Habitat Mitigation Goals and Standards, OAR 635-415, shall be followed.

**4. Water Quality Condition:**

The use may be restricted if the quality of the source stream or downstream waters decrease to the point that those waters no longer meet existing state or federal water quality standards due to reduced flows.

**STANDARD CONDITIONS**

- 1. Failure to comply with any of the provisions of this permit may result in action including, but not limited to, restrictions on the use, civil penalties, or cancellation of the permit.
- 2. Where two or more water users agree among themselves as to the manner of rotation in the use of water and such agreement is placed in writing and filed by such water users with the watermaster, and such rotation system does not infringe upon such prior rights of any water user not a party to such rotation plan, the watermaster shall distribute the water according to such agreement.

3. This permit is for the beneficial use of water without waste. The water user is advised that new regulations may require the use of best practical technologies or conservation practices to achieve this end.
4. By law, the land use associated with this water use must be in compliance with statewide land-use goals and any local acknowledged land-use plan.
5. The use of water allowed herein may be made only at times when sufficient water is available to satisfy all prior rights, including prior rights for maintaining instream flows.
6. Construction of the water system shall begin within five years of the date of permit issuance. The deadline to begin construction may not be extended. This permit is subject to cancellation proceedings if the begin construction deadline is missed.
7. Complete application of the water shall be made within five years of the date of permit issuance. If beneficial use of permitted water has not been made before this date, the permittee may submit an application for extension of time, which may be approved based upon the merit of the application.
8. Within one year after complete application of water to the proposed use, the permittee shall submit a claim of beneficial use, which includes a map and report, prepared by a Certified Water Rights Examiner.

Issued NOV 21 2019

Dwight French  
Water Right Services Division Administrator, for  
Thomas M. Byler, Director  
Oregon Water Resources Department
