STATE OF OREGON,) ss. County of Marion,

This is to certify that I have examined the foregoing application and do hereby grant the same, subject to the following limitations and conditions: If for irrigation, this appropriation shall be limited to one-eightieth of one cubic foot per second, or its equivalent, for each acre irrigated, and shall be subject to such reasonable rotation system as may be ordered by the proper state officer.

The right herein granted is limited to the appropriation of water from East Fork of Deschutes River for irrigation purposes. Attention is called to the fact that appropriations of the waters of this stream and its tributaries appear to exceed the low water flow and this condition may prevent permittee from securing any water under this permit.

The amount of water appropriated shall be limited to the amount which can be applied to beneficial use and not to exceed 1.25 cubic feet per second, or its equivalent in case of rotation. The priority date of this permit is January 30, 1923.

Actual construction work shall begin on or before February 17, 1924. and shall thereafter be prosecuted with reasonable diligence and be completed on or before June 1, 1925.

Complete application of the water to the proposed use shall be made on or before October 1, 1927. Extended to Oct. 1, 1931

WITNESS my hand this 17th day of February, 1923.

Percy A. Cupper, State Engineer.

Permits for power development are subject to the limitation of franchise as provided in Section 5728, Oregon Laws, and the payment of annual fees as provided in Section 5803, Oregon Laws.
