Remarks: The land to be irrigated under this application has a water right from the Pleasantview Irrigation Company and the land from which the waste water is derived also is irrigated from the Pleasantview Irr. Company Ditch. That land is also irrigated by means of wells and pumping plants after the Pleasantview Ditch is dry and I wish to file upon the waste water both from the Pleasantview Ditch and from the wells. Tracing will be sent later.

STATE OF OREGON, } 88. County of Marion, }

This is to certify that I have examined the foregoing application and do hereby grant the same, subject to the following limitations and conditions: If for irrigation, this appropriation shall be limited to one-eightieth of one cubic foot per second, or its equivalent, for each acre irrigated, and shall be subject to such reasonable rotation system as may be ordered by the proper state officer.

The right herein granted is limited to the appropriation of waste water for a supplemental supply for the irrigation of lands already having a partial water right; and is also limited to the water available at the proposed point of diversion and does not carry with it the right to divert water from the stream from which the waste water is diverted, nor the right to require the wasteful use of water by others.

The amount of water appropriated shall be limited to the amount which can be applied to beneficial use and not to exceed 0.25 cubic feet per second, or its equivalent in case of rotation. The priority date of this permit is December 29, 1922.

Actual construction work shall begin on or before April 5, 1924. and shall thereafter be prosecuted with reasonable diligence and be completed on or before June 1, 1925.

Complete application of the water to the proposed use shall be made on or before October 1, 1926.

WITNESS my hand this 5th day of April, 1923.

Percy A. Cupper.

State Engineer.
