Remarks: Applicant claims a right to all water covered by this application by reason of its claim filed in the Adjudication of the water rights on Hood River and its tributaries. This application is intended to place the District's claim on record and as a precautionary measure in case it should be determined at any time that the award in the final determination of said adjudication was not broad enough to cover all rights herein covered. This application has been deemed wise due to the fact that the award in the decree of the Court did not follow specifically the claim filed and made no specific reference to some of the sources of supply set forth in said claim.

It is intended to divert from any source herein named the total amount available therein but not to exceed in the aggregate the amount of the appropriation herein specified.
