

* Permit No. 6833

APPLICATION FOR A PERMIT

To Appropriate the Public Waters of the State of Oregon

I, Almeda T. Bowles (Name of Applicant) of Seattle (Postoffice), County of King, State of Washington, do hereby make application for a permit to appropriate the following described public waters of the State of Oregon subject to existing rights:

If the applicant is a corporation, give date and place of incorporation

1. The source of the proposed appropriation is Johnson Creek (Name of stream)

tributary of Willamette River

2. The amount of water which the applicant intends to apply to beneficial use is 1/8 of a cubic foot per second.

3. The use to which the water is to be applied is Irrigation (Irrigation, power, mining, manufacturing, domestic supplies, etc.)

4. The point of diversion is located on applicant's property through which stream flows and in the Southwest Quarter of the Southwest Quarter of Section 15, Township 1 South of Range 2 E.W.M.

being within the SW 1/4 of SW 1/4 of Sec. 15, Tp. 1 S. (Give smallest legal subdivision) (No. N. or S.)

R. 2 E., W. M., in the county of Multnomah (No. E. or W.)

5. The See Insert to be miles in length, terminating in the of Sec. of Tp. (Main ditch, canal or pipe line) (Smallest legal subdivision) (No. N. or S.)

R. W. M., the proposed location being shown throughout on the accompanying map. (No. E. or W.)

6. The name of the ditch, canal or other works is

DESCRIPTION OF WORKS

DIVERSION WORKS—

7. (a) Height of dam feet, length on top feet, length at bottom feet; material to be used and character of construction (Loose rock, concrete, masonry, rock and brush, timber crib, etc., wasteway over or around dam)

(b) Description of headgate (Timber, concrete, etc., number and size of openings)

* A different form of application is provided where storage works are contemplated. These forms can be secured without charge, together with instructions, by addressing the State Engineer, Salem, Oregon.

CANAL SYSTEM—

8. (a) Give dimensions at each point of canal where materially changed in size, stating miles from headgate. At headgate: Width on top (at water line) feet; width on bottom feet; depth of water feet; grade feet fall per one thousand feet.

(b) At miles from headgate. Width on top (at water line) feet; width on bottom feet; depth of water feet; grade feet fall per one thousand feet.

FILL IN THE FOLLOWING INFORMATION WHERE THE WATER IS USED FOR:

IRRIGATION—

9. The land to be irrigated has a total area of 5 acres, located in each smallest legal subdivision, as follows: The description is very long, being by metes and bounds, (Give area of land in each smallest legal subdivision which you intend to irrigate) but it comprises the country home of applicant situated in the Southwest Quarter of the Southwest Quarter of Section 15 and the Northwest Quarter of the Northwest Quarter of Section 22, Township 1 South, Range 2 East of the Willamette Meridian. About 5 acres of the land are irrigated-- in SW 1/4 SW 1/4 of said Sec. 15.

(Insert) In answer to questions 5, 6 and 7, no canal is used but the water is pumped from Johnson Creek into a tower which is in turn connected with a series of pipes, the tower being at a sufficient elevation to furnish pressure and the water is sprinkled on a lawn and flower garden and used through this system to irrigate fruit trees also.

(If more space required, attach separate sheet)

POWER, MINING, MANUFACTURING, OR TRANSPORTATION PURPOSES—

10. (a) Total amount of power to be developed theoretical horsepower.

(b) Total fall to be utilized feet. (Head)

(c) The nature of the works by means of which the power is to be developed

(d) Such works to be located in of Sec., Tp., R., W. M. (Legal subdivision) (No. N. or S.) (No. E. or W.)

(e) Is water to be returned to any stream? (Yes or No)

(f) If so, name stream and locate point of return Sec., Tp., R., W. M. (No. N. or S.) (No. E. or W.)

(g) The use to which power is to be applied is

(h) The nature of the mines to be served

MUNICIPAL SUPPLY—

11. To supply the city of _____

(Name of) County, having a present population of _____,
and an estimated population of _____ in 19_____.

- (Answer questions 12, 13, 14 and 15 in all cases)
- Actual
12. ~~Estimated~~ cost of ~~proposed~~ works, \$ about \$10,000.....
13. Construction work will begin on or before _____ Work is completed.....
14. Construction work will be completed on or before _____ Work is completed.....
15. The water will be completely applied to the proposed use on or before _____ Water is applied.....

Duplicate maps of the proposed ditch or other works, prepared in accordance with the rules of the State Water Board, accompany this application.

Almeda T. Bowles
(Name of applicant)

Signed in the presence of us as witnesses:

- (1) W. Lair Thompson _____, 926 N.W. Bank, Portland, Oregon
(Name) (Address of Witness)
- (2) Katherine Busenbark _____, 926 N.W. Bank Bldg., Portland, Oregon
(Name) (Address of Witness)

Remarks: This application is filed to make a record of an existing water right. Because no works of the kind contemplated by the questions are necessary, what there is could not be shown on a map. This water was applied several years ago and has been in use continuously during the season when irrigation of garden and orchard was necessary, and by filing this application applicant does not waive but expressly reserves all of her rights gained through use of water, and as a riparian owner.

State Engineer.

1 Map E.R. \$3.75

STATE OF OREGON, County of Marion, ss.

This is to certify that I have examined the foregoing application and do hereby grant the same, subject to the following limitations and conditions: If for irrigation, this appropriation shall be limited to one-eightieth of one cubic foot per second, or its equivalent, for each acre irrigated, and shall be subject to such reasonable rotation system as may be ordered by the proper state officer.

The right herein granted is limited to the appropriation of water from Johnson Creek for irrigation purposes.

The amount of water appropriated shall be limited to the amount which can be applied to beneficial use and not to exceed 0.06 cubic feet per second, or its equivalent in case of rotation. The priority date of this permit is August 5, 1925.

Actual construction work shall begin on or before August 17, 1926 and shall thereafter be prosecuted with reasonable diligence and be completed on or before June 1, 1927.

Complete application of the water to the proposed use shall be made on or before October 1, 1928

WITNESS my hand this 17th day of August, 1925

RHEA LUPER

State Engineer.

Permits for power development are subject to the limitation of franchise as provided in Section 5728, Oregon Laws, and the payment of annual fees as provided in Section 5803, Oregon Laws.
