Remarks: Said wells are shallow, and amount to developed springs, which have been opened up and flow a continuous stream. While all the water therefrom is now used on said lands, if not so used, it will run down to adjoining lands and eventually into Mud Creek, hence Mr. Aubrey E. Perry, Water Master for Umatilla County, has advised me to include said wells and said lands in this application.
The new intake dam is already in, a former renter having put it in for the more convenient handling of the water for the rights already granted.
