following described public waters of the State of Oregon, subject to existing rights:

If the applicant is a corporation, give date and place of incorporation Special Act of
February 28, 1901

1. The source of the proposed appropriation is Cold Spring and Laurel Creek
(Name of stream)
tributary of West Fork Hood River

2. The amount of water which the applicant intends to apply to beneficial use is 20
cubic feet per second from Cold Spring and 5 cubic feet per second
from Laurel Creek.

3. The use to which the water is to be applied is municipal purposes of all kinds
(Irrigation, power, mining, manufacturing, domestic supplies, etc.)
including domestic supplies, irrigation, etc., & Power

4. The point of division is located at the junction of Cold Spring Creek and Laurel
(Give distance and bearing to section corner)
Creek which is about 1500 feet north and 750 west of the Quarter Corner between
sections 30 and 31, Twp. 1 North, Range 9 East of the Willamette Meridian

being within the NE 1/4 of the SW 1/4 of Sec. 30, Tp. 1 N.,
(Give smallest legal subdivision) (No. N. or S.)
R. 9 E., W. M., in the county of Hood River, Oregon
(No. E. or W.)

5. The pipe-line to be about 20
(Main ditch, canal or pipe line)
miles in length, terminating in the SE 1/4 of the NE 1/4 of Sec. 35, Tp. 3 N.,
(Smallest legal subdivision) (No. N. or S.)
R. 10 E., W. M., the proposed location being shown throughout on the accompanying map.
(No. E. or W.)

6. The name of the ditch, canal or other works is

DESCRIPTION OF WORKS

DIVERSION WORKS—

7. (a) Height of dam feet, length on top feet, length at bottom
feet; material to be used and character of construction
See note on general map (Loose rock, concrete, masonry,
rock and brush, timber crib, etc., wasteway over or around dam)

(b) Description of heddgate
(Timber, concrete, etc., number and size of openings)

* A different form of application is provided where storage works are contemplated. These forms can be secured without charge,
together with instructions, by addressing the State Engineer, Salem, Oregon.

CANAL SYSTEM—

8. (a) Give dimensions at each point of canal where materially changed in size, stating miles from headgate. At headgate: Width on top (at water line) feet; width on bottom feet; depth of water feet; grade feet fall per one thousand feet.

(b) At miles from headgate: Width on top (at water line) feet; width on bottom feet; depth of water feet; grade feet fall per one thousand feet.

FILL IN THE FOLLOWING INFORMATION WHERE THE WATER IS USED FOR IRRIGATION—

9. The land to be irrigated has a total area of acres, located in each smallest legal subdivision, as follows: (Give area of land in each smallest legal subdivision which you intend to irrigate)

(If more space required, attach separate sheet)

POWER, MINING, MANUFACTURING, OR TRANSPORTATION PURPOSES—

10. (a) Total amount of power to be developed 85 theoretical horsepower.

(d) Such works to be located in SE 1/4 NE 1/4 of Sec. 30 (Legal subdivision)

Tp. 3 N. (No. N. or S.), R. 10 E. (No. E. or W.), W. M.

(e) Is water to be returned to any stream? No (Yes or No)

(f) If so, name stream and locate point of return Sec., Tp., R., W. M. (No. N. or S.) (No. E. or W.)

(g) The use to which power is to be applied is Street or ornamental lighting, heating or general electric power purposes.

(h) The nature of the mines to be served

MUNICIPAL SUPPLY—

11. To supply the city of Hood River, Oregon
Hood River County, having a present population of 3500
(Name of) and an estimated population of 4500 in 1928.

(Answer questions 12, 13, 14, and 15 in all cases)

- 12. Estimated cost of proposed works, \$ 250,000.00
13. Construction work will begin on or before 3 years after date
14. Construction work will be completed on or before 5 years after date
15. The water will be completely applied to the proposed use on or before 5 years after date

Duplicate maps of the proposed ditch or other works, prepared in accordance with the rules of the State Engineer, accompany this application.

CITY OF HOOD RIVER (Name of applicant)

By R. B. Perigo

Attest: H. L. Howe, Recorder

Signed in the presence of us as witnesses:

- (1) (Name) (Address of witness)
(2) (Name) (Address of witness)

Remarks: The accompanying maps as originally made are not correct in that it shows Laurel Creek flowing into the West Fork of Hood River, direct, while the facts are that it joins the Lake Branch before becoming a part of the said West Fork. Have attempted to make the correction with pen and ink.

Cold spring is about 100 feet south of the junction of Laurel Creek and Lake Branch. It is about 75 feet southerly of Laurel Creek, and the stream flowing from the Cold Spring flows about 75 feet northerly into Laurel Creek. The map does not locate properly, the junction point of Laurel Creek and Lake Branch.

STATE OF OREGON, }
County of Marion, } ss.

This is to certify that I have examined the foregoing application, together with the accompanying maps and data, and return the same for correction or completion, as follows:

Changed to include power development

In order to retain its priority, this application must be returned to the State Engineer, with corrections, on or before April 22, 1928.

WITNESS my hand this 22nd day of March, 1928.

Rhea Luper

STATE ENGINEER.
