

* Permit No. 8458

APPLICATION FOR A PERMIT

CERTIFICATE NO. 9711

To Appropriate the Public Waters of the State of Oregon

I, The Pelican Bay Lumber Company
(Name of applicant)
of Klamath Falls, County of Klamath,
(Postoffice)
State of Oregon, do hereby make application for a permit to appropriate the following described public waters of the State of Oregon, subject to existing rights:

If the applicant is a corporation, give date and place of incorporation April 1911,
Oregon

1. The source of the proposed appropriation is (See Exhibit A.)
(Name of stream)
, tributary of _____

2. The amount of water which the applicant intends to apply to beneficial use is _____
one cubic feet per second.

3. The use to which the water is to be applied is manufacturing and domestic supply.
(Irrigation, power, mining, manufacturing, domestic supplies, etc.)
(See Exhibit A.)

4. The point of division is located (See Exhibit A.)
(Give distance and bearing to section corner)

being ~~within the~~ near North line of Sec. 18, Tp. 38 South,
(Give smallest legal subdivision) (No. N. or S.)
R. 15 E., W. M., in the county of Klamath
(No. E. or W.)

5. The (See Exhibit A.) to be _____
(Main ditch, canal or pipe line)
miles in length, terminating in the _____ of Sec. _____, Tp. _____,
(Smallest legal subdivision) (No. N. or S.)
R. _____, W. M., the proposed location being shown throughout on the accompanying map.
(No. E. or W.)

6. The name of the ditch, canal or other works is _____

DESCRIPTION OF WORKS

DIVERSION WORKS—

7. (a) Height of dam _____ feet, length on top _____ feet, length at bottom _____ feet; material to be used and character of construction _____
(Loose rock, concrete, masonry, rock and brush, timber crib, etc., wasteway over or around dam)

(b) Description of headgate _____
(Timber, concrete, etc., number and size of openings)

* A different form of application is provided where storage works are contemplated. These forms can be secured without charge, together with instructions, by addressing the State Engineer, Salem, Oregon.

"EXHIBIT A."

The applicant, Pelican Bay Lumber Company, appends to its application the following statement and makes the same a part of said application under the above designation.

1. The source of the proposed appropriation is as follows:

In the extreme Northeast corner of the NE $\frac{1}{4}$ of the NW $\frac{1}{4}$ of Section 18, Township 38 South, Range 15 East of the Willamette Meridian is a small spring, locally known as Roberson Spring, and in the extreme Northwest corner of the NW $\frac{1}{4}$ of the NE $\frac{1}{4}$ of said Section 18 are several additional small springs, all of said springs arising probably from the same subterranean source and are found in and constitute a wet or boggy flat; that said springs seep or flow north-easterly and become confluent at a point approximately on the north line of said Section 18, which point is about 300 feet east of the quarter section corner of said Section; that said springs thence flow in a small creek or channel north-easterly and before flowing into any definite stream, seem to sink or disappear in a flat or meadow.

3. As designated under this paragraph, applicant desires to use the water for manufacturing and domestic supply and further explains that the nature of such use will be the ordinary uses of water in, around and in connection with a logging camp and logging operations. Applicant expects to construct a logging railway to enable it to transport, from this and adjacent localities, certain pine timber which it owns and it may be necessary to use a portion of said water for such steam engines as applicant may employ. Otherwise the water will be used in connection with bathing, cooking, watering horses and drinking water for men.
4. The point of diversion can best be determined when it is ascertained as to just what point it will be convenient to utilize said waters, but applicant believes and alleges that it will desire to place a pump in such stream as there now is or which it may be able to develop at or near the north line of Section 18, above described, and at a point on said line about 300 feet easterly, it being apparent, so far as applicant can now determine, that such point will become the point of confluence of the seepage from said springs. Such point of diversion will probably be near the north line of said Section, as above described, and in the NW $\frac{1}{4}$ of the NE $\frac{1}{4}$ thereof.
5. Applicant does not contemplate the construction of a ditch, but at the point of diversion will make such excavation as is necessary to create a small sump or collecting basin for the water from said springs and will place in said sump a gasoline powered engine pump for the purpose of raising the water therefrom to a point convenient for the uses above explained.
10. Applicant has heretofore explained the nature of the use of said waters and will define same as MANUFACTURING AND DOMESTIC as previously stated in the application. It is probable that little, if any, of the waters so used will be returned to any stream.

MUNICIPAL SUPPLY—

11. To supply the city of
..... County, having a present population of
(Name of)
and an estimated population of in 192.....

(Answer questions 12, 13, 14, and 15 in all cases)

- 12. Estimated cost of proposed works, \$.....
- 13. Construction work will begin on or before
- 14. Construction work will be completed on or before
- 15. The water will be completely applied to the proposed use on or before

Duplicate maps of the proposed ditch or other works, prepared in accordance with the rules of the State Engineer, accompany this application.

May 16th, 1928.

Recorded in Book No. 28 of

Permits, on page 8458.

R. H. E. A. L. U. P. E. R. STATE ENGINEER.

1 map ACRP \$10.00

STATE OF OREGON, ss. County of Marion,

This is to certify that I have examined the foregoing application and do hereby grant the same, subject to the following limitations and conditions: If for irrigation, this appropriation shall be limited to one-eighth of one cubic foot per second, or its equivalent, for each acre irrigated, and shall be subject to such reasonable rotation system as may be ordered by the proper state officer.

The right here in granted is limited to the appropriation of water from Unnamed Spring for manufacturing and domestic purposes.

The amount of water appropriated shall be limited to the amount which can be applied to beneficial use and not to exceed 1.0 cubic feet per second, or its equivalent in case of rotation. The priority date of this permit is April 26, 1928.

Actual construction work shall begin on or before May 16, 1929 and shall thereafter be prosecuted with reasonable diligence and be completed on or before June 1, 1930

Complete application of the water to the proposed use shall be made on or before

October 1, 1921

WITNESS my hand this 16th day of May, 1928.

R. H. E. A. L. U. P. E. R. STATE ENGINEER.

Permits for power development are subject to the limitation of franchise as provided in Section 5728, Oregon Laws, and the payment of annual fees as provided in Section 5803, Oregon Laws.

This form approved by the State Water Board, March 11, 1909.
