Remarks: There are two springs here one of which is barely within the county road the other over on Lot 66. This filing is on the one within the Lot and is wholly on my land. Although the other is in the County Road it is still on my land as if the road were ever vacated half of the road would revert to my property (Lot 66). So for that reason include the spring which is in County Road when I say I waive no rights to either.

An application for 0.10 second feet is made for the reason that there are at present two houses on my land and I expect to build another.
