This is to certify that I have examined the foregoing application and do hereby grant the same,
SUBJECT TO EXISTING RIGHTS and the following limitations and conditions:

The rights herein granted is limited to the amount of water which can be applied to beneficial use and
shall not exceed 1.05 cubic feet per second measured at the point of diversion from the well or
source of appropriation, or its equivalent in case of rotation with other water users, from John E.

Kornala Ranch Well

The use to which this water is to be applied is supplemental irrigation.

If for irrigation, this appropriation shall be limited to 1/80 of one cubic foot per second
or its equivalent for each acre irrigated and shall be further limited to a diver-
sion of not to exceed 3 acre feet per acre for each acre irrigated during the irri-
gation season of each year; provided further that the amount of water allowed herein,
together with the amount secured under any other right existing for the same lands
shall not exceed the limitation allowed herein, and shall be still further limited
to a diversion of not to exceed 1.45 c.f.s.,

and shall be subject to such reasonable rotation system as may be ordered by the proper state officer.

The well shall be so cased as to prevent the loss of underground water.

The priority date of this permit is May 6, 1953

Actual construction work shall begin on or before August 21, 1954 and shall
thereafter be prosecuted with reasonable diligence and be completed on or before

October 1, 1955
