

Permit No. **U-655**

APPLICATION FOR A PERMIT

To appropriate the Underground Waters of the State of Oregon

I, **FLORENCE M. TELER**

(Name of applicant)

of **120 Erabata Road, Salem**, county of **Marion**

(Mailing address)

state of **Oregon**, do hereby make application for a permit to appropriate the following described underground waters of the state of Oregon, SUBJECT TO EXISTING RIGHTS:

If the applicant is a corporation, give date and place of incorporation

1. Give name of nearest stream to which the well, tunnel or other source of water development is situated **Battercreek**

(Name of stream)

tributary of **Umatilla River**

2. The amount of water which the applicant intends to apply to beneficial use is **6.4** cubic feet per second.

3. The use to which the water is to be applied is **irrigation**

Well #1 :

4. The well or other source is located **240 ft. south** and **20 ft. east** from the **NW** corner of **20**. Well #2: **20 ft. north from S<sub>1</sub> corner, Section 20**

(N. or S.)

(E. or W.)

(Section or subdivision)

(If preferable, give distance and bearing to section corner)

(If there is more than one well, each must be described. Use separate sheet if necessary)

being within the **Well #1 - NW<sub>1/4</sub>** **Well #2 - SE<sub>1/4</sub>** of Sec. **20**, Twp. **3 N**, R. **28 E**

W. M., in the county of **Umatilla**

5. The **canal** to be **2** miles in length, terminating in the **NW<sub>1/4</sub> and SE<sub>1/4</sub>** of Sec. **20**, Twp. **3 N**

(Canal or pipe line)

(Smallest legal subdivision)

R. **28 E**, W. M., the proposed location being shown throughout on the accompanying map.

6. The name of the well or other works is **private wells. TELER WELL 4 - #1**  
**TELER WELL 4 - #2**

DESCRIPTION OF WORKS

7. If the flow to be utilized is artesian, the works to be used for the control and conservation of the supply when not in use must be described.

8. The development will consist of **two wells** having a diameter of **12** inches and an estimated depth of **300** feet.

(Give number of wells, tunnels, etc.)

CANAL SYSTEM OR PIPE LINE—

9. (a) Give dimensions at each point of canal where materially changed in size, stating miles from headgate. At headgate: width on top (at water line) 3 feet; width on bottom 2 feet; depth of water 2 1/2 feet; grade variable feet fall per one thousand feet.

(b) At \_\_\_\_\_ miles from headgate: width on top (at water line) \_\_\_\_\_ feet; width on bottom \_\_\_\_\_ feet; depth of water \_\_\_\_\_ feet; grade \_\_\_\_\_ feet fall per one thousand feet.

(c) Length of pipe, 1600 ft.; size at intake, 12 in.; in size at \_\_\_\_\_ ft. from intake \_\_\_\_\_ in.; size at place of use 12 in.; difference in elevation between intake and place of use, \_\_\_\_\_ ft. Is grade uniform? no. Estimated capacity, 3.2 sec. ft.

10. If pumps are to be used, give size and type 125-160 h.p. each turbine type pumps capable of delivering 3.2 sec. ft. each.

Give horsepower and type of motor or engine to be used 125-160 h.p. each.

11. If the location of the well, tunnel, or other development work is less than one-fourth mile from a natural stream or stream channel, give the distance to the nearest point on each of such channels and the difference in elevation between the stream bed and the ground surface at the source of development

12. Location of area to be irrigated, or place of use \_\_\_\_\_

Township N. or S.	Range E. or W. of Willamette Meridian	Section	Forty-acre Tract	Number Acres To Be Irrigated
3 N	28 E	20	NE 1/4 NE 1/4	40
			NW 1/4 NE 1/4	40
			SE 1/4 NE 1/4	40
			SW 1/4 NE 1/4	40
			NE 1/4 SE 1/4	40
			NW 1/4 SE 1/4	40
			SE 1/4 SE 1/4	40
			SW 1/4 SE 1/4	40

(If more space required, attach separate sheet)

(a) Character of soil Light, sandy texture; deep and fertile.

(b) Kind of crops raised Hay, grain, row crops and irrigated pasture.

MUNICIPAL SUPPLY—

- 13. (a) To supply the city of .....  
 ..... county, having a present population of .....  
(Name of)  
 and an estimated population of ..... in 19.....
- 14. Estimated cost of proposed works, \$ 20,000.....
- 15. Construction work will begin on or before ..... after allowance of Desert entry.....
- 16. Construction work will be completed on or before ..... Prior to completion of development on desert entry.....
- 17. The water will be completely applied to the proposed use on or before ..... Within 4 years after allowance of desert entry.....

X Florence M. Joler  
(Signature of applicant)

Remarks: This application is for a permit to drill two wells which will be equipped with turbine type pump and motor for the raising of subterranean water to irrigate land for agriculture as described in #12. As this is land now under federal ownership and under my desert application, I cannot go on this land to do any improvement until my application is allowed. It has in the past taken some six months to a year to get allowance of these applications. I will be able to begin within a reasonable time after the allowance of this application and comply with the regulations for completion of works and application for beneficial use of the land dated from the time when I am allowed to go on the land. It is my intention to improve this land for agriculture by irrigation through subterranean water and make beneficial use on the land by such application for irrigation purposes.

STATE OF OREGON. }  
 County of Marion, } ss.

This is to certify that I have examined the foregoing application, together with the accompanying maps and data, and return the same for .....

In order to retain its priority, this application must be returned to the State Engineer, with corrections on or before ....., 19.....

WITNESS my hand this ..... day of ....., 19.....

STATE ENGINEER

STATE OF OREGON,

County of Marion,

PERMIT

This is to certify that I have examined the foregoing application and do hereby grant the same, SUBJECT TO EXISTING RIGHTS and the following limitations and conditions:

The right herein granted is limited to the amount of water which can be applied to beneficial use and shall not exceed 4.0 cubic feet per second measured at the point of diversion from the well or source of appropriation, or its equivalent in case of rotation with other water users, from Teal Wells h - 1, h - 2.

The use to which this water is to be applied is irrigation

If for irrigation, this appropriation shall be limited to 1/80 of one cubic foot per second or its equivalent for each acre irrigated and shall be further limited to a diversion of not to exceed 3 acre feet per acre for each acre irrigated during the irrigation season of each year; provided further that the amount of water allowed herein, together with the amount secured under any other right existing for the same lands shall not exceed the limitation allowed herein,

and shall be subject to such reasonable rotation system as may be ordered by the proper state officer.

The well shall be so cased as to prevent the loss of underground water.

The priority date of this permit is June 4, 1954

Actual construction work shall begin on or before December 20, 1955 and shall thereafter be prosecuted with reasonable diligence and be completed on or before October 1, 1956

Complete application of the water to the proposed use shall be made on or before October 1, 1957

WITNESS my hand this 20th day of December, 1954

Lewis A. Stanley
