see above as to use and development.

MUNICIPAL SUPPLY--

13. (a) To supply the city of _____
_____ county, having a present population of _____
and an estimated population of _____ in 19_____

- 14. Estimated cost of proposed works, \$ _____
- 15. Construction work will begin on or before _____
- 16. Construction work will be completed on or before _____
- 17. The water will be completely applied to the proposed use on or before _____

Roy R. Leonard
(Signature of applicant)
Lela M. Leonard

Remarks: In 1951 the State Highway Commission paved a connection between State Highway No. 82 and U.S. #20 on a road passing through center of Sec. 3, Township 3 S. Range 38 EWN. They required gravel for said road and therefore established a gravel pit on the land of the applicant. The legal description of which is set out in this application. Said legal description being made by the State Highway Commission. Also, they furnished applicant with a map of said gravel pit, which said map is attached to and made a part of this application. Said gravel pit being located along the north line of the northwest quarter of the Southwest quarter of said Section 3.

At the present time there is a water right on said premises calling for water for 20 acres in said NW $\frac{1}{4}$ of said SW $\frac{1}{4}$ of said Section, and this application is filed as an original right on remainder of said 20 acres and as a supplemental on said 20, thereby making water available to the entire 40 acres.

Said gravel pit is located wholly within the rights of the lands belonging to the applicants, and no other persons are involved in the ownership thereof.

Application for change in point of use and method of use was recently approved by State Engineer, Water Resources Department, Salem, Oregon, whereby applicants use a pumping system to irrigate the lands under said original application. The same pumping system will be used under this application, and pumping will be done from Mulholland Branch and from the gravel pit according to the availability of water therein and the conditions at the time of any particular irrigation being done on the lands of the applicants.

STATE OF OREGON, }
County of Marion, } ss.

This is to certify that I have examined the foregoing application, together with the accompanying maps and data, and return the same for _____

In order to retain its priority, this application must be returned to the State Engineer, with corrections on or before _____, 19_____

WITNESS my hand this _____ day of _____, 19_____

STATE OF OREGON,

PERMIT

County of Marion,

This is to certify that I have examined the foregoing application and do hereby grant the same, SUBJECT TO EXISTING RIGHTS and the following limitations and conditions:

The right herein granted is limited to the amount of water which can be applied to beneficial use and shall not exceed 0.50 cubic feet per second measured at the point of diversion from the well or source of appropriation, or its equivalent in case of rotation with other water users, from Gravel Pit

The use to which this water is to be applied is irrigation & supplemental irrigation

If for irrigation, this appropriation shall be limited to 1/80 of one cubic foot per second or its equivalent for each acre irrigated and shall be further limited to a diversion of not to exceed 3 acre feet per acre for each acre irrigated during the irrigation season of each year; provided further that the amount of water allowed herein, together with the amount secured under any other right existing for the same lands shall not exceed the limitation allowed herein,

and shall be subject to such reasonable rotation system as may be ordered by the proper state officer.

The well shall be so cased as to prevent the loss of underground water.

The priority date of this permit is November 16, 1954

Actual construction work shall begin on or before March 21, 1956 and shall thereafter be prosecuted with reasonable diligence and be completed on or before October 1, 1956

Complete application of the water to the proposed use shall be made on or before October 1, 1957

WITNESS my hand this 21st day of March 19 55.
