

Permit No. U-624

APPLICATION FOR A PERMIT

To appropriate the Underground Waters of the State of Oregon

I, Patricia Timm and Hela Timm  
of Box 227 Pendleton Oregon, county of Umatilla,  
state of Oregon

do hereby make application for a permit to appropriate the following described underground waters of the state of Oregon, SUBJECT TO EXISTING RIGHTS:

If the applicant is a corporation, give date and place of incorporation

1. Give name of nearest stream to which the well, tunnel or other source of water development is situated Tutuilla Creek  
(Name of stream)  
tributary of Umatilla River

2. The amount of water which the applicant intends to apply to beneficial use is .18 cubic feet per second.

3. The use to which the water is to be applied is Sprinkler irrigation

4. The well or other source is located 90 ft. S. and 96 ft. E. from the N. W. corner of SW 1/4, Section 1  
(N or S.) (E or W) (Section or subdivision)  
131.8 FT., bearing S. 46° - 58' E. from N.W. corner, S.W. 1/4, Section 1,  
(If there is more than one well, each must be described. Use separate sheet if necessary)

being within the N.W. 40 of S.W. 1/4 of Sec. 1, Twp. 1 N. R. 32 E. W. M., in the county of Umatilla

5. The \_\_\_\_\_ to be \_\_\_\_\_ miles in length, terminating in the \_\_\_\_\_ of Sec. \_\_\_\_\_ Twp. \_\_\_\_\_ R. \_\_\_\_\_ W. M., the proposed location being shown throughout on the accompanying map.  
(Canal or pipe line) (Smallest legal subdivision)

6. The name of the well or other works is \_\_\_\_\_

DESCRIPTION OF WORKS

7. If the flow to be utilized is artesian, the works to be used for the control and conservation of the supply when not in use must be described.

8. The development will consist of one well having a diameter of 8 inches and an estimated depth of 504 feet.  
(Give number of wells, tunnels, etc.)

U- 694

CANAL SYSTEM OR PIPE LINE

9. (a) Give dimensions at each point of canal where materially changed in size, stating miles from headgate. At headgate: width on top (at water line) ..... feet; width on bottom ..... feet; depth of water ..... feet; grade ..... feet fall per one thousand feet.

(b) At ..... miles from headgate: width on top (at water line) ..... feet; width on bottom ..... feet; depth of water ..... feet; grade ..... feet fall per one thousand feet.

(c) Length of pipe, ..... ft.; size at intake, ..... in.; in size at ..... ft. from intake ..... in.; size at place of use ..... in.; difference in elevation between intake and place of use, ..... ft. Is grade uniform? ..... Estimated capacity, ..... sec. ft.

10. If pumps are to be used, give size and type Fairbanks Morse deep well lineshaft turbine.

Give horsepower and type of motor or engine to be used 10 Horsepower - Fairbanks Morse Vertical, Hollow Shaft, Electric motor

11. If the location of the well, tunnel, or other development work is less than one-fourth mile from a natural stream or stream channel, give the distance to the nearest point on each of such channels and the difference in elevation between the stream bed and the ground surface at the source of development

12. Location of area to be irrigated, or place of use NW 1/4 of SW 1/4, Sec 7 T1N 32 E 1 W

| Township N. or S. | Range E. or W. of Willamette Meridian | Section | Forty-acre Tract | Number Acres To Be Irrigated |
|-------------------|---------------------------------------|---------|------------------|------------------------------|
| T. 1 N.           | 32 E. W. M.                           | 1       | NW 1/4 SW 1/4    | 14.4                         |
|                   |                                       |         |                  |                              |
|                   |                                       |         |                  |                              |
|                   |                                       |         |                  |                              |
|                   |                                       |         |                  |                              |
|                   |                                       |         |                  |                              |
|                   |                                       |         |                  |                              |
|                   |                                       |         |                  |                              |
|                   |                                       |         |                  |                              |
|                   |                                       |         |                  |                              |

(If more space required, attach separate sheet)

(a) Character of soil Pilot Rock Silt Loam + McKay Silt Loam Hermiston very fine sandy loam

(b) Kind of crops raised Pasture Grass - Alfalfa - Cereal

MUNICIPAL SUPPLY

12. For the supply of \_\_\_\_\_  
\_\_\_\_\_ county, having a present population of \_\_\_\_\_  
and an estimated population of \_\_\_\_\_ in 19 \_\_\_\_\_

14. Estimated cost of proposed works, \$ 9100.00

15. Construction work will begin on or before June 7 1954

16. Construction work will be completed on or before June 7 1956

17. The water will be completely applied to the proposed use on or before June 7 1956

STATE OF OREGON,

PERMIT

County of Marion,

This is to certify that I have examined the foregoing application and do hereby grant the same, SUBJECT TO EXISTING RIGHTS and the following limitations and conditions:

The right herein granted is limited to the amount of water which can be applied to beneficial use and shall not exceed 0.18 cubic feet per second measured at the point of diversion from the well or source of appropriation, or its equivalent in case of rotation with other water users, from a well

The use to which this water is to be applied is Irrigation

If for irrigation, this appropriation shall be limited to 1/80 of one cubic foot per second or its equivalent for each acre irrigated and shall be further limited to a diversion of not to exceed 3 acre feet per acre for each acre irrigated during the irrigation season of each year;

and shall be subject to such reasonable rotation system as may be ordered by the proper state officer.

The well shall be so cased as to prevent the loss of underground water.

The priority date of this permit is January 20, 1955

Actual construction work shall begin on or before March 21, 1956 and shall thereafter be prosecuted with reasonable diligence and be completed on or before October 1, 1956

Complete application of the water to the proposed use shall be made on or before October 1, 1957

WITNESS my hand this 21st day of March 1955

Lewis A. Stanley
