NARRATIVE

This map was prepared at the request of Mr. Goral LaPorte. The purpose of this map is to display the dimensions of the boundaries of Tax Lot 901 and the taxable area computed from these dimensions. The data shown on this map was obtained during a survey for the Blue Mountain Credit Union. That survey is recorded as Umatilla County survey No. 11-127-C. That map should be consulted for information concerning the establishment of the boundaries shown on this map and for more detailed information concerning monumentation and boundary marking. The road alignment data on this map is based on the actual road structure. The measurements were made to the centerline of the existing pavement and the measurements and curve data were computed to match the centerline measurements. This map represents conditions as they existed during the performance of Survey 11-127-C. No additional field visits were made and no monuments were set for this mapping project.

BASIS OF BEARINGS

Survey data for this project was collected in the NAD 83-1991 datum. Grid bearings were rotated 1°24'13" clockwise around the NW corner of Section 23 to obtain the bearings shown on this map. Grid distances were scaled by a combined scale factor of 0.99999669 to obtain the true ground distances shown on this map.

LEGEND

- EXISTING CORNER MONUMENTS FROM PRIOR SURVEYS. SEE NOTES ON SURVEY 11-127-C.
- MONUMENT SET UNDER COUNTY SURVEY 11-127-C
- COMPUTED POINT - NOTHING SET
