Narrative

The purpose of this survey is to set mark the west line of that tract of land described in Film Volume 313 Page 262, Yamhill County deed records. The deed dimensions close to within 0.01'. The northeast corner is held as the fence corner (FV 13 P 614 calls a stake in fence). The southeast corner is set in the centerline of Peavine Road by drawing a line through the deed oak tree as shown. The west line is set parallel to and 795' westerly of the east line as calculated by running deed angles and distances from the east line.
