Application for Water Right

Transfer

Part 1 of 4 - Minimum Requirements Checklist

This transfer application will be returned if Parts 1 through 4 and all required attachments are not completed and included. For questions, please call (503) 986-0900, and ask for Transfer Section.

FOR ALL TRANSFER APPLICATIONS

Che	ck all ite	ms included with this application. $(N/A = Not Applicable)$
\boxtimes		Part 1 – Completed Minimum Requirements Checklist.
\boxtimes		Part 2 – Completed Transfer Application Map Checklist.
\boxtimes		Part 3 – Completed Transfer Application – Applicant Information and Signature.
\boxtimes		Part 4 – Completed Transfer Application – Water Right Information. Please include a separate Part 4 for each water right. List all water right certificates to be transferred here: <u>Certificates 86198, 86199 and 86201</u> .
		Attachments:
\boxtimes		Completed Transfer Application Map. AUG 27 2010
\boxtimes		Completed Evidence of Use Affidavit and supporting documentation.
\boxtimes		Fees – Amount enclosed: \$ <u>1950.00</u> . See the Department's Fee Schedule at <u>www.wrd.state.or.us</u> or call (503) 986-0883.
	N/A	Affidavit(s) of Consent.
	N/A	Supplemental Form D – For water rights served by or issued in the name of an irrigation district. Complete when the transfer applicant is not the irrigation district.
	N/A	Land Use Information Form with approval and signature (or signed land use form receipt stub). Not required if water is to be diverted, conveyed, and/or used only on federal lands of if all of the following apply: a) a change in place of use only, b) no structural changes, c) the use of water is for irrigation only, and d) the use is located within an irrigation district or an exclusive farm use zone.
	N/A	For changes in point(s) of appropriation (well(s)) or additional point(s) of appropriation, Water Well Report/Well Log.
	N/A	For Temporary Transfer (one to five years) Begin Year End Year
	N/A	For Temporary Transfer only – Current recorded deed for the land from which the authorized place of use is being moved.
	N/A	Temporary Drought Transfer (For use in counties where the Governor has declared drought
		(For Staff Use Only) ARE RETURNING YOUR APPLICATION FOR THE FOLLOWING REASON(S): Application fee not enclosed/insufficient Map not included or incomplete Land Use Form not enclosed or incomplete Additional signature(s) required Part is incomplete FEXPlanation 503-986-0 Date: / /

Your transfer application will be returned if any of the map requirements listed below are not met. Please be sure that the transfer application map you submit includes all the required items and matches the existing water right map. Check all boxes that apply. \boxtimes N/A Certified Water Right Examiner (CWRE) Stamp and Original Signature. For list of CWREs see http://www1.wrd.state.or.us/pdfs/cwre listing.pdf. CWRE stamp and signature are not required for temporary changes, historic point of diversion changes, and substitutions. N/A If more than three water rights are involved, separate maps are needed for each water right. \boxtimes Permanent quality printed with dark ink on white or clear paper or film. X The size of the map can be $8\frac{1}{2} \times 11$ inches, $8\frac{1}{2} \times 14$ inches, or up to 30 x 30 inches. For 30 x 30 inch maps, three (3) paper copies and an electronic copy in a .pdf, .tiff or .jpg format are required. \boxtimes A north arrow, a legend, and scale. \boxtimes The scale of the map must be: 1 inch = 400 feet, 1 inch = 1,320 feet, the scale of the Final Proof/Claim of Beneficial Use Map (the map used when the permit was certificated), the scale of the county assessor map if the scale is not smaller than 1 inch = 1,320 feet, or a scale that has been pre-approved by the Department. \boxtimes Township, Range, Section, ¼ ¼, DLC, Government Lot, and other recognized public land survey lines. \boxtimes Tax lot boundaries (property lines) are required. Tax lot numbers are recommended. \boxtimes Major physical features including rivers and creeks showing direction of flow, lakes and reservoirs, roads, and railroads. \boxtimes Major water delivery system features from the point(s) of diversion/appropriation such as main pipelines, canals, and ditches. \boxtimes Existing place of use that includes separate hachuring for each water right, priority date, and use including number of acres in each quarter-quarter section, government lot, or in each quarter-quarter section as projected within government lots, donation land claims, or other recognized public land survey subdivisions. If less than the entirety of the water right is being changed, a separate hachuring is needed for lands left unchanged. X N/A Proposed place of use that includes separate hachuring for each water right, priority date, and use including number of acres in each quarter-quarter section, government lot, or in each quarter-quarter section as projected within government lots, donation land claims, or other AUG 27 2010 recognized public land survey subdivisions. \boxtimes Existing point(s) of diversion or well(s) with distance and bearing or coordinates from a recognized survey corner. This information can be found in your water right certificate or permit. If you are proposing a change in point(s) of diversion or well(s), show the proposed location and label it clearly with distance and bearing or coordinates. If GPS coordinates are used, latitude-longitude coordinates may be expressed as either degrees-minutes-seconds with at least one digit after the decimal (example - 42°32'15.5") or degrees-decimal with five or

more digits after the decimal (example - 42.53764°).

Part 4 of 4 - Water Right Information

Please use a separate Part 4 for each water right being changed. See instructions at http://www.wrd.state.or.us/OWRD/PUBS/forms.shtml.

CERTIFICATE # 86198

Description of W	Description of Water Delivery System							
System capacity:	em capacity: 19.4 cubic feet per second (cfs) OR							
	gallons per minute (gpm)							

Describe the current water delivery system or the system that was in place at some time within the last five years. Include information on the pumps, canals, pipelines and sprinklers used to divert, convey and apply the water at the authorized place of use. Detailed information on the diversion, conveyance and distribution systems for the ranch are contained in a Claim of Beneficial Use for T-8827 completed in December 2009.

A description of POD 1 is in the file for Certificate 50208. The capacity at POD 1 exceeds the 22.4 cfs that can be conveyed at and below POD 2.

POD 2 consists of an approximately 12-feet-wide concrete weir subdivided into two sections. Flashboards can be installed in each section of the weir to impound 3 1/2 feet of water. The southern main ditch below POD can convey up to 22.4 cfs based on the ditch characteristics.

POD 3 is similar to POD 2, but is 10-feet wide and can impound up to 3 feet of water. A section of ditch below POD 3 can convey 19.4 cfs based on the ditch characteristics.

Water passing through ditches below POD 3 is conveyed to the western side of the ranch through a culvert beneath Highway 380. A number of lateral ditches in the place of use allow flood irrigation of the fields in Section 24.

A portable diesel-powered pump with about 700 feet of 6-inch mainline connected to handlines and Nelson sprinklers was used to irrigate the NE NW of Section 20 from a point on the ditch below POD 2. The diesel pump was calculated at the time of the recent Claim of Beneficial Use to be capable of at least 3.726 cfs and the sprinklers were calculated to produce 0.424 cfs.

Additional remarks: There is no change in USE. Not all of the place of use is shown on the maps. There will be remaining rights in the NW NE, NE NW and NW NW of Section 24 in a 15-feet-wide buffer adjacent to the low area because this area is assumed to be sub-irrigated and cannot be dried up.

AUG 27 2010

Revised 3/2/2010

For Place of Use or Character of Use Changes

To Flace of ese of character of ese changes
Are there other water right certificates, water use permits or ground water registrations associated with the "from" or the "to" lands? \square Yes \boxtimes No
If YES, list the certificate, water use permit, or ground water registration numbers:
Pursuant to ORS 540.510, any "layered" water use such as an irrigation right that is supplemental a primary right proposed for transfer must be included in the transfer or be cancelled. Any change to a ground water registration must be filed separately in a ground water registration modification application.
For Substitution (ground water supplemental irrigation will be substituted for surface water primar irrigation)
Ground water supplemental Permit or Certificate #; Surface water primary Certificate #
For a change from Supplemental Irrigation Use to Primary Irrigation Use
Identify the primary certificate to be cancelled. Certificate #
For a change in point(s) of appropriation (well(s)) or additional point(s) of appropriation:
Well log(s) are attached for each authorized and proposed well(s) that are clearly labeled and associated with the corresponding well(s) in Table 1 above and on the accompanying application map. (Tip : You may search for well logs on the Department's web page at: http://apps2.wrd.state.or.us/apps/gw/well_log/Default.aspx)
OR
Describe the construction of the authorized and proposed well(s) in Table 3 for any wells the do not have a well log.
Table 3. Construction of Point(s) of Appropriation

Any well(s) in this listing must be clearly tied to corresponding well(s) described in Table 1 and shown on the accompanying application map. Failure to provide adequate information is likely to delay the processing of your transfer application. For proposed wells, we recommend that you consult a licensed well driller, geologist, or certified water right examiner for the proper information needed to complete the table.

Part 4 of 4 - Water Right Information

Please use a separate Part 4 for each water right being changed. See instructions at http://www.wrd.state.or.us/OWRD/PUBS/forms.shtml.

CERTIFICATE # 86201

Description of Water Delivery System System capacity: 22.4 cubic feet per second (cfs) OR gallons per minute (gpm)

Describe the current water delivery system or the system that was in place at some time within the last five years. Include information on the pumps, canals, pipelines and sprinklers used to divert, convey and apply the water at the authorized place of use. As indicated for Certificate 86198 above, POD 2 can convey 22.4 cfs.

A dedicated 20-hp electrical pump was used to forward water through approximately 2,800 feet of 5-inch-diameter PVC mainline to a portable Pierce Acre Master mini-pivot and handlines. The mini-pivot delivered approximately 1.55 cfs.

Table 1. Location of Authorized and Proposed Point(s) of Diversion (POD) or Appropriation (POA) (Note: If the POD/POA name is not specified on the certificate, assign it a name or number here.)

Revised 3/2/2010

No No

Complete all of Table 2 to describe the portion of the water right to be changed.

"CODES" listed above to describe the proposed changes.

Please use additional pages of Table 2 as needed

Table 2. Description of Changes to Water Right Certificate # 86199
List only the part of the right that will be changed. For the acreage in each 1/4 1/4, list the change proposed. If more than one change, specify the acreage associated with each change. If more than one POD/POA, specify the acreage associated with each POD/POA.

Additional remarks: There is no change in USE. Not all of the place of use is shown on the maps.

For Place of Use or Character of Use Changes

	and of the of the first of the thanker
	there other water right certificates, water use permits or ground water registrations associated the "from" or the "to" lands? 🖂 Yes 🗌 No
If Y	ES, list the certificate, water use permit, or ground water registration numbers: 86201.
a pri to a	uant to ORS 540.510, any "layered" water use such as an irrigation right that is supplemental to mary right proposed for transfer must be included in the transfer or be cancelled. Any change ground water registration must be filed separately in a ground water registration modification ication.
For St	abstitution (ground water supplemental irrigation will be substituted for surface water primary irrigation)
	and water supplemental Permit or Certificate #; ace water primary Certificate #
For a	change from Supplemental Irrigation Use to Primary Irrigation Use
Iden	tify the primary certificate to be cancelled. Certificate #
For a	change in point(s) of appropriation (well(s)) or additional point(s) of appropriation:
	Well log(s) are attached for each authorized and proposed well(s) that are clearly labeled and associated with the corresponding well(s) in Table 1 above and on the accompanying application map. (Tip : You may search for well logs on the Department's web page at: http://apps2.wrd.state.or.us/apps/gw/well_log/Default.aspx)
OR	
	Describe the construction of the authorized and proposed well(s) in Table 3 for any wells that

Table 3. Construction of Point(s) of Appropriation

do not have a well log.

Any well(s) in this listing must be clearly tied to corresponding well(s) described in Table 1 and shown on the accompanying application map. Failure to provide adequate information is likely to delay the processing of your transfer application. For proposed wells, we recommend that you consult a licensed well driller, geologist, or certified water right examiner for the proper information needed to complete the table.
