Are there other water right certificates, water use permits or ground water registrations associated with the "from" or the "to" lands? Yes No	
If YES, list the certificate, water use permit, or ground water registration numbers:	
Pursuant to ORS 540.510, any "layered" water use such as an irrigation right that is supplemental to a primary right proposed for transfer must be included in the transfer or be cancelled. Any change to a ground water registration must be filed separately in a ground water registration modification application.)
For Substitution (ground water supplemental irrigation will be substituted for surface water primary irrigation)

For a change from Supplemental Irrigation Use to Primary Irrigation Use	
Identify the primary certificate to be cancelled. Certificate #	
For a change in point(s) of appropriation (well(s)) or additional point(s) of appropriation:	
Well log(s) are attached for each authorized and proposed well(s) that are clearly labeled and associated with the corresponding well(s) in Table 1 above and on the accompanying application map. (Tip : You may search for well logs on the Department's web page at: http://apps2.wrd.state.or.us/apps/gw/well_log/Default.aspx)

Any well(s) in this listing must be clearly tied to corresponding well(s) described in Table 1 and shown on the accompanying application map. Failure to provide adequate information is likely to delay the processing of your transfer application. For proposed wells, we recommend that you consult a licensed well driller, geologist, or certified water right examiner for the proper information needed to complete the table.
