In your own words tell us what change(s) you want made and the reason for the change(s): <u>Have used</u> additional well (POA 2) for about 20 years to manage water more conveniently and efficiently. OWRD recently told us we were not authorized to use this well, and that we must apply for water right change/transfer to formally add it to our water right.

#### **CERTIFICATE # 86564**

#### **Description of Water Delivery System**

System capacity: 0.10 cubic feet per second (cfs) OR

45 gallons per minute (gpm)

Describe the current water delivery system or the system that was in place at some time within the last five years. Include information on the pumps, canals, pipelines and sprinklers used to divert, convey and apply the water at the authorized place of use. Water withdrawn from POA 1 is conveyed in buried mainline that runs due east along south boundary of Tax Lots 601, 600 and 1500, then due north along east boundary of Tax Lots 1500 and 1200, then due west along property line that divides Tax Lots 1200 and 1500. Water withdrawn from POA 2 is conveyed northeast to interconnection with mainline that runs between Tax Lots 1200 and 1500. Water is applied with solid-set sprinkler irrigation systems (formerly to orchards and now to grass pastures).
