Season 3 (cfs) _____ Time period: _____

Maximum duty associated with subject water rights (ac-ft): 802.2

Conditions or other limitations, if any: The District only allows a 2 acre feet per acre minimum before an excess charge is calculated, therefore we will only be contributing instream the minimum usage in section 2.2.

If you need to enter another leased right, please use the additional water rights form.

~II~ Instream Water Right Information

2.1 **Public use.** This lease will increase streamflows that will benefit:

Conservation, maintenance and enhancement of aquatic and fish life, wildlife, and fish and wildlife habitat

Pollution abatement

Recreation and scenic attraction

2.2 **Instream use created by lease.** The instream use to be created is described as follows:

Deschutes River

Tributary to the Columbia River in the Columbia Basin.

Describe the point of diversion (POD) and any associated reach(es) of the instream use being created. If possible list the reach by river mile. If no reach is identified, and there is only one POD listed on the certificate, the lease will be processed to be protected at the POD. (If more than one POD is listed on the certificate, then the POD and any associated reach(es) must be identified): North Canal Dam (river mile 164.6) to Mouth of the Deschutes @ River Mile 0

Maximum volume in acre-feet: 305.6

Rate in cfs: 1.116

(If more than one rate, describe the rate associated within each time period or instream reach.)

(Use the section below to indicate a more restrictive period of use than allowed by the water right.)

Conditions to prevent injury, if any:

None

- The instream flow will be allocated on a daily average basis up to the described rate from 05/01/2011 through 09/15/2011.
- Other (describe): _____

2.3 Term of lease. This lease shall terminate on October 31, 2011.

2.4 Flow protection. The Trustee will regulate use of water from the source, subject to prior appropriation and the agency enforcement guidance, to assure the water is delivered to the point of diversion, and through the reach past junior downstream users, so long as flow is sufficient to meet the demand under priority date of the new instream use (see Section 2.2). As part of regulation activities the watermaster or a designee has access to the point of diversion and place of use for the water rights involved in this lease. No party is required to continuously measure the flow of the waterway described in Section 2.2.

~III~ Other Information

3.1 Accuracy. The Undersigned Lessor(s) and Lessee(s) declare that, to the best of their knowledge and belief, the information contained in this application is true, correct and complete. If after the lease order is signed, any information is determined to be false, the lease order may be modified or terminated. The lease only exercises the water rights being leased, for the term of the lease. It shall not be construed to overcome any claim that the water right may otherwise be subject to forfeiture for nonuse pursuant to ORS 540.610 during the period of time prior to the execution of the lease.

3.2 Lease. Lessor(s) and Lessee(s) agree to lease the water rights listed in Section(s) 1.5 for instream use for the term of this lease through Lessee to the Trustee, the Oregon Water Resources Department, pursuant to the provisions of ORS 537.348(2) and OAR 690-077.

3.3 Precedent. If a right which has been leased is later proposed to be leased again or transferred to an instream use under ORS 537.348 and OAR 690-077 a new injury review shall be required, and a prior short term lease shall not set a precedent for the amount of water to be leased or transferred instream.

3.4 Suspension of original use. During the period of the lease, the water right holder agrees to suspend use of water allowed under the subject water rights and under any water right that is supplemental to the subject water rights.

3.5 Termination provision.

- For multiyear leases, the Lessor(s) shall have the option of terminating the lease each year with written notice to the Department. The lease may be terminated at any time during the calendar year. However, if the termination request is received less than 30-days prior to the period of allowed instream use or after the period of allowed use has begun for the water right(s) being leased, water may not be used under the right(s) leased until the following calendar year, unless the Director determines that enlargement would not occur. The Department may also require:
- Written notice to the Department with original signatures;
 - Consent by all parties to the lease; and/or
 - Written notice to the Watermaster's office.
- For multiyear leases, the lessor shall not have the option of terminating the lease, without consent by all parties to the lease.

3.6 **Modification to prevent injury.** Allocation of water to the instream use described in Section 2.2 during the term of this lease is not reasonably expected to cause injury to other rights to use water from the same source. If injury is found after this lease is signed, the lease may be modified or terminated to prevent injury.

3.7 **Fees.** Pursuant to ORS 536.050, the following fee is included:

- \$400 for an application with four or more landowners or four or more water rights.
 \$250 for all other applications.

If additional water right holders, enter water right holder information below

Note: The section numbering associated with this form corresponds to that found on the "Standard Instream Lease Application" form. The "Pooled Lease" form and "Pooled Water Right Holder" form(s) are used to provide the same information as the "Standard Instream Lease Application" form. Consequently, the numbering on this form is not always sequential.

~I~ Water Right Holder and Water Right Information

- 1.1 Lessor #1 is the water right holder, or authorized agent for property described in Section 1.5. If the water right appurtenant to these lands is also appurtenant to lands owned by others who are not included in this application, then Attachment 1 (tax lot map), needs to be included.
- 1.3 For the water right(s) being leased, list all water rights appurtenant to the same lands. Indicate if there are any supplemental or overlying rights.

Certificate No. 72279

- 1.4 Are some or all of the lands being leased part of a Conservation Reserve Enhancement Program. Yes No

- 1.5 **Water Right(s) Proposed to be Leased Instream.** Water right holder proposes to lease the water rights shown on the map attached as Exhibit 5-B and described as follows:
[This information may be included on Exhibit 5-A, or an additional map may be attached. Crosshatch the area of water rights being leased. Attached map(s) must identify water right holder, township, range, section and ¼ ¼, tax lot number, map orientation and scale.]

1.6 Validity of rights. Lessor(s) attests (mark one) that:

- The water has been used over the past five years according to the terms and conditions of the water right certificate or as an instream water right or
- The water has not been used over the past five years according to the terms and conditions of the water right certificate, however the water right is not subject to forfeiture under ORS 540.610(2)(_) (include necessary supporting documentation as Attachment 3).

~II~ Instream Water Right Information

2.3 Term of lease. This lease shall terminate on October 31, 2011. (If there is a conflict between the Pooled Lease Form and this form, the Pooled Lease Form will be the official term of the lease.)

~III~ Other Information

3.1 Accuracy. The Undersigned Lessor(s) and Lessee(s) declare that, to the best of their knowledge and belief, the information contained in this application is true, correct and complete. If after the lease order is signed, any information is determined to be false, the lease order may be modified or terminated. The lease only exercises the water rights being leased, for the term of the lease. It shall not be construed to overcome any claim that the water right may otherwise be subject to forfeiture for nonuse pursuant to ORS 540.610 during the period of time prior to the execution of the lease.

3.2 Lease. Lessor(s) and Lessee(s) agree to lease the water rights listed in Section(s) 1.5 for instream use for the term of this lease through Lessee to the Trustee, the Oregon Water Resources Department, pursuant to the provisions of ORS 537.348(2) and OAR 690-077.

3.3 Precedent. If a right which has been leased is later proposed to be leased again or transferred to an instream use under ORS 537.348 and OAR 690-077 a new injury review shall be

required, and a prior short term lease shall not set a precedent for the amount of water to be leased or transferred instream.

3.4 Suspension of original use. During the period of the lease, the water right holder agrees to suspend use of water allowed under the subject water rights and under any water right that is supplemental to the subject water rights.

3.5 Termination provision.

For multiyear leases, the Lessor(s) shall have the option of terminating the lease each year with written notice to the Department. The lease may be terminated at any time during the calendar year. However, if the termination request is received less than 30-days prior to the period of allowed instream use or after the period of allowed use has begun for the water right(s) being leased, water may not be used under the right(s) leased until the following calendar year, unless the Director determines that enlargement would not occur. The Department may also require:

- Written notice to the Department with original signatures;
- Consent by all parties to the lease; and/or
- Written notice to the Watermaster's office.

For multiyear leases, the lessor shall not have the option of terminating the lease, without consent by all parties to the lease.

3.6 Modification to prevent injury. Allocation of water to the instream use described in Section 2.2 during the term of this lease is not reasonably expected to cause injury to other rights to use water from the same source. If injury is found after this lease is signed, the lease may be modified or terminated to prevent injury.
