

# Application for Water Right Transfer

## Part 1 of 4 – Minimum Requirements Checklist

Oregon Water Resources Department  
 725 Summer Street NE, Suite A  
 Salem, Oregon 97301-1266  
 (503) 986-0900  
 www.wrd.state.or.us

**This transfer application will be returned if Parts 1 through 4 and all required attachments are not completed and included.**  
 For questions, please call (503) 986-0900, and ask for Transfer Section.

### FOR ALL TRANSFER APPLICATIONS

Check all items included with this application. (N/A = Not Applicable)

- Part 1 – Completed Minimum Requirements Checklist.
- Part 2 – Completed Transfer Application Map Checklist.
- Part 3 – Completed Transfer Application – Applicant Information and Signature.
- Part 4 – Completed Transfer Application – Water Right Information. Please include a separate Part 4 for each water right. List all water right certificates to be transferred here: **44733.**

**Attachments:**

- Completed Transfer Application Map. (WAIVER from KYLE GORMAN)
- Completed Evidence of Use Affidavit and supporting documentation.
- Fees – Amount enclosed: \$ **900.00.**  
See the Department's Fee Schedule at [www.wrd.state.or.us](http://www.wrd.state.or.us) or call (503) 986-0883.

**RECEIVED**

JUN 29 2011

WATER RESOURCES DEPT  
 SALEM, OREGON

- N/A Affidavit(s) of Consent.
- N/A Supplemental Form D – For water rights served by or issued in the name of an irrigation district. Complete when the transfer applicant is not the irrigation district.
- N/A Land Use Information Form with approval and signature (or signed land use form receipt stub). Not required if water is to be diverted, conveyed, and/or used only on federal lands or if **all** of the following apply: a) a change in place of use only, b) no structural changes, c) the use of water is for irrigation only, and d) the use is located within an irrigation district or an exclusive farm use zone.
- N/A For changes in point(s) of appropriation (well(s)) or additional point(s) of appropriation, Water Well Report/Well Log.
- N/A For Temporary Transfer (one to five years) Begin Year \_\_\_\_ End Year \_\_\_\_.
- N/A For Temporary Transfer only – Current recorded deed for the land **from** which the authorized place of use is being moved.
- N/A Temporary Drought Transfer (For use in counties where the Governor has declared drought)

(For Staff Use Only)

**WE ARE RETURNING YOUR APPLICATION FOR THE FOLLOWING REASON(S):**

<input type="checkbox"/> Application fee not enclosed/insufficient	<input type="checkbox"/> Map not included or incomplete
<input type="checkbox"/> Land Use Form not enclosed or incomplete	<input type="checkbox"/> Part ____ is incomplete
<input type="checkbox"/> Additional signature(s) required	
Other/Explanation _____	
Staff: _____ 503-986-0_____	Date: ____/____/____

T 11266

**Part 2 of 4 – Transfer Application Map Checklist –  
 WAIVER FROM FULL MAP REQUIREMENTS BY KYLE GORMAN, REGIONAL MGR**

Your transfer application will be returned if any of the map requirements listed below are not met.

**Please be sure that the transfer application map you submit includes all the required items and matches the existing water right map. Check all boxes that apply.**

- N/A Certified Water Right Examiner (CWRE) Stamp and Original Signature. For a list of CWREs, see [http://www1.wrd.state.or.us/pdfs/cwre\\_listing.pdf](http://www1.wrd.state.or.us/pdfs/cwre_listing.pdf). CWRE stamp and signature are not required for temporary changes and substitutions.
- N/A If **more than three** water rights are involved, separate maps are needed for each water right.
- Permanent quality printed with dark ink on white or clear paper or film.
- The size of the map can be 8½ x 11 inches, 8½ x 14 inches, or up to 30 x 30 inches. For 30 x 30 inch maps, three (3) paper copies and an electronic copy in a .pdf, .tiff or .jpg format are required.
- A north arrow, a legend, and scale.
- The scale of the map must be: 1 inch = 400 feet, 1 inch = 1,320 feet, the scale of the Final Proof/Claim of Beneficial Use Map (the map used when the permit was certificated), the scale of the county assessor map if the scale is not smaller than 1 inch = 1,320 feet, or a scale that has been pre-approved by the Department.
- Township, Range, Section, ¼ ¼, DLC, Government Lot, and other recognized public land survey lines.
- Tax lot boundaries (property lines) are required. Tax lot numbers are recommended.
- Major physical features including rivers and creeks showing direction of flow, lakes and reservoirs, roads, and railroads.
- Major water delivery system features from the point(s) of diversion/appropriation such as main pipelines, canals, and ditches.
- Existing place of use that includes separate hachuring for each water right, priority date, and use including number of acres in each quarter-quarter section, government lot, or in each quarter-quarter section as projected within government lots, donation land claims, or other recognized public land survey subdivisions. If less than the entirety of the water right is being changed, a separate hachuring is needed for lands left unchanged.
- N/A Proposed place of use that includes separate hachuring for each water right, priority date, and use including number of acres in each quarter-quarter section, government lot, or in each quarter-quarter section as projected within government lots, donation land claims, or other recognized public land survey subdivisions.
- Existing point(s) of diversion or well(s) with distance and bearing or coordinates from a recognized survey corner. This information can be found in your water right certificate or permit.
- N/A If you are proposing a change in point(s) of diversion or well(s), show the proposed location and label it clearly with distance and bearing or coordinates. If GPS coordinates are used, latitude-longitude coordinates may be expressed as either degrees-minutes-seconds with at least one digit after the decimal (example – 42°32'15.5") or degrees-decimal with five or more digits after the decimal (example – 42.53764°).

In your own words tell us what change(s) you want made and the reason for the change(s): **There are currently two certified water rights (44733 and 67133) irrigating the applicant's land. Cert 44733 has PODs that take cool, clean spring water directly out of Barkley Springs, which is important habitat for endangered sucker fish. The applicants wish to instead divert all of their irrigation water from the POD for Certificate 67133, which takes water out of a canal fed by Upper Klamath Lake. Therefore, they are applying to add an additional POD to Certificate 44733, which will allow them to divert the irrigation water under Cert 44733 from the existing POD for Certificate 67133. There is NO CHANGE to the amount or location of land that is being irrigated. Please note that the applicants are requesting this change based on advice from the Oregon Department of Fish and Wildlife; the purpose of this request is to benefit fish habitat and water quality**

**Check the following boxes that apply:**

- The applicant is responsible for completion of change(s). Notices and correspondence should continue to be sent to the applicant.
- The receiving landowner will be responsible for completing the proposed change(s) after the final order is issued. Copies of notices and correspondence should be sent to this landowner.
- The receiving landowner and applicant will be responsible for completion of change(s). Copies of notices and correspondence should be sent to this landowner and the applicant.

At this time, are the lands in this transfer application in the process of being sold?  Yes  No

If YES, and you know who the new landowner will be, please complete the receiving landowner information table below. If you do not know who the new landowner will be, then a request for assignment will have to be filed for at a later date.

If a property sells, the certificated water right(s) located on the land belong to the new owner, unless a sale agreement or other document states otherwise. (To learn about sale agreements please visit our web site at: <http://www1.wrd.state.or.us/pdfs/Transfer-PropertyTransactions.pdf>)

**Part 4 of 4 – Water Right Information**

Please use a separate Part 4 for each water right being changed. See instructions at <http://www.wrd.state.or.us/OWRD/PUBS/forms.shtml>.

**CERTIFICATE # 44733**

**Description of Water Delivery System**

System capacity: 11 cubic feet per second (cfs) OR  
 \_\_\_\_\_ gallons per minute (gpm)

Describe the current water delivery system or the system that was in place at some time within the last five years. Include information on the pumps, canals, pipelines and sprinklers used to divert, convey and apply the water at the authorized place of use. **Water is currently diverted from the existing PODs to supply a 150hp pump, which supplies water to the northern two-thirds of the property. From the PODs, the water enters a canal, and flows SE approximately 1750ft to the pump site. This pump supplies a pivot irrigation system and wheel lines to apply water to approximately 440 acres. Please see attached maps for further explanation.**

TOTAL ACRES						440.0						TOTAL ACRES						440.0

Additional remarks: The applicant is filing for an additional POD for the water right evidenced by Cert 44733. The existing PODs are mapped accurately on the Final Proof Survey conducted by LE Gould on July 11, 1975. The additional POD will divert the original source of water out of the receiving water body, Upper Klamath Lake, for the purpose of irrigating the appurtenant 440 acres. The additional point of diversion for Cert 44733 will be located at the existing POD for Certificate 67133 (which also irrigates land owned by the applicants) which is mapped accurately on the Final Proof Survey conducted on April 10 and October 16, 1990 by BW Bishop and revised January 29, 1991 by Bishop. No change to the water right evidenced by Cert 67133 will occur.

When the change is complete the two water rights will share a pump diversion and mainline capable of irrigating the entire acreage covered by both rights. Water will be pumped from the south up to the north up the center of the irrigated property from the point of diversion.

In summary: There are currently two certified water rights (44733 and 67133) irrigating the applicant's land. Cert 44733 has PODs that take cool, clean spring water directly out of Barkley Springs, which is critical habitat for endangered sucker fish. The applicants wish to instead divert all of their irrigation water from the POD for Certificate 67133, which takes water out of a canal fed by Upper Klamath Lake. Therefore, they are applying to add an additional POD to Certificate 44733, which will allow them to divert the irrigation water under Cert 44733 from the existing POD for Certificate 67133. There is NO CHANGE to the amount or location of land that is being irrigated. Please note that the applicants are requesting this change based on advice from the Oregon Department of Fish and Wildlife; the purpose of this request is to benefit fish habitat and water quality.

**RECEIVED**  
JUN 29 2011  
WATER RESOURCES DEPT  
SALEM, OREGON

**For Place of Use or Character of Use Changes**

Are there other water right certificates, water use permits or ground water registrations associated with the "from" or the "to" lands?  Yes  No

If YES, list the certificate, water use permit, or ground water registration numbers: \_\_\_\_\_.

Pursuant to ORS 540.510, any "layered" water use such as an irrigation right that is supplemental to a primary right proposed for transfer must be included in the transfer or be cancelled. Any change to a ground water registration must be filed separately in a ground water registration modification application.

**For Substitution** (ground water supplemental irrigation will be substituted for surface water primary irrigation)

Ground water supplemental Permit or Certificate # \_\_\_\_\_;  
Surface water primary Certificate # \_\_\_\_\_.

**For a change from Supplemental Irrigation Use to Primary Irrigation Use**

Identify the primary certificate to be cancelled. Certificate # \_\_\_\_\_

**For a change in point(s) of appropriation (well(s)) or additional point(s) of appropriation:**

Well log(s) are attached for each authorized and proposed well(s) that are clearly labeled and associated with the corresponding well(s) in Table 1 above and on the accompanying application map. (Tip: You may search for well logs on the Department's web page at: [http://apps2.wrd.state.or.us/apps/gw/well\\_log/Default.aspx](http://apps2.wrd.state.or.us/apps/gw/well_log/Default.aspx))

**OR**

Describe the construction of the authorized and proposed well(s) in Table 3 for any wells that do not have a well log.

**Table 3. Construction of Point(s) of Appropriation**

Any well(s) in this listing must be clearly tied to corresponding well(s) described in Table 1 and shown on the accompanying application map. Failure to provide adequate information is likely to delay the processing of your transfer application. For proposed wells, we recommend that you consult a licensed well driller, geologist, or certified water right examiner for the proper information needed to complete the table.

Proposed or Authorized POA Name or Number	Is well already built? (Yes or No)	If an existing well; OWRD Well ID Tag No. L-___	Total well depth	Casing Diameter	Casing Intervals (feet)	Seal depth(s) (intervals)	Perforated or screened intervals (in feet)	Static water level of completed well (in feet)	Source aquifer (sand, gravel, basalt, etc.)	Well-specific rate (cfs or gpm). If less than full rate of water right
