

**BEFORE THE WATER RESOURCES DEPARTMENT
OF THE
STATE OF OREGON**

In the Matter of Transfer Application)
T-11241, Douglas County)
)
) PRELIMINARY DETERMINATION
) PROPOSING APPROVAL OF A
) CHANGE IN POINT OF DIVERSION
) AND PLACE OF USE

Authority

ORS 540.505 to 540.580 establishes the process in which a water right holder may submit a request to transfer the point of diversion, place of use, or character of use authorized under an existing water right. OAR Chapter 690, Division 380 implements the statutes and provides the Department’s procedures and criteria for evaluating transfer applications.

Applicant

GLENN AND DORIS BUTLER
18478 DIXONVILLE ROAD
ROSEBURG, OR 97470

Landowner

DOROTHY MALONE
18414 DIXONVILLE ROAD
ROSEBURG, OR 97470

Findings of Fact

Background

1. On May 3, 2011, GLENN AND DORIS BUTLER filed an application to change the point of diversion and place of use under Certificate 79011. The Department assigned the application number T-11241.
2. The applicants provided Consent by Deeded Landowner with their submission of Transfer Application T-11241.
3. The portion of the first right to be transferred is as follows:

Certificate: 79011 in the name of C.L. MALONE (perfected under Permit S-48025)
Use: IRRIGATION of 0.4 ACRE
Priority Date: SEPTEMBER 2, 1983
Rate: 0.005 CUBIC FOOT PER SECOND
Limit/Duty: The amount of water used for irrigation, together with the amount secured under any other right existing for the same lands, is limited to ONE-EIGHTIETH of one cubic foot per second per acre, or its equivalent for each acre irrigated and shall be further limited to a diversion of not to

Pursuant to OAR 690-380-4030, any person may file a protest or standing statement within 30 days after the last date of publication of notice of this preliminary determination.

exceed 2.5 acre-feet for each acre irrigated during the irrigation season of each year.

Source: DEER CREEK, tributary to the SOUTH UMPQUA RIVER

Authorized Point of Diversion:

Twp	Rng	Mer	Sec	Q-Q	Measured Distances
27 S	5 W	WM	24	SW SW	1240 FEET NORTH AND 840 FEET EAST FROM THE SW CORNER OF SECTION 24

Authorized Place of Use:

IRRIGATION					
Twp	Rng	Mer	Sec	Q-Q	Acres
27 S	5 W	WM	24	NW SW	0.4

- Transfer Application T-11241 proposes to move the authorized point of diversion approximately 700 feet downstream to:

Twp	Rng	Mer	Sec	Q-Q	Measured Distances
27 S	5 W	WM	24	NW SW	1647 FEET NORTH AND 574 FEET EAST FROM THE SW CORNER OF SECTION 24

- Transfer Application T-11241 also proposes to change the place of use of the right to:

IRRIGATION					
Twp	Rng	Mer	Sec	Q-Q	Acres
27 S	5 W	WM	24	NW SW	0.4

- Notice of the application for transfer was published on May 10, 2011, pursuant to OAR 690-380-4000. No comments were filed in response to the notice.
- On June 16, 2011, the Department mailed a copy of the draft Preliminary Determination proposing to approve Transfer Application T-11241 to the applicants. The draft Preliminary Determination cover letter set forth a deadline of July 18, 2011, for the applicants to respond. The applicant requested that the Department proceed with issuance of a Preliminary Determination and provided the necessary information to demonstrate that the applicants are authorized to pursue the transfer.
- The Oregon Department of Fish and Wildlife (ODFW) has determined that a fish screening and/or by-pass device is necessary at the new point of diversion to prevent fish from entering the diversion and/or safely transport fish back to the body of water from which the fish were diverted and that the diversion is not currently equipped with an appropriate fish screening and/or by-pass device. This diversion may be eligible for screening cost share funds.

Transfer Review Criteria [OAR 690-380-4010(2)]

- Water has been used within the last five years according to the terms and conditions of the right. There is no information in the record that would demonstrate that the right is subject to forfeiture under ORS 540.610.

10. A pump, pipeline, and sprinkler system sufficient to use the full amount of water allowed under the existing right were present within the five-year period prior to submittal of Transfer Application T-11241.
11. The proposed changes would not result in enlargement of the right.
12. The proposed changes would not result in injury to other water rights.

Determination and Proposed Action

The change in point of diversion and change in place of use proposed in Transfer Application T-11241 appear to be consistent with the requirements of ORS 540.505 to 540.580 and OAR 690-380-5000. If protests are not filed pursuant to OAR 690-380-4030, the transfer application will be approved.

If Transfer Application T-11241 is approved, the final order will include the following:

1. *The change in point of diversion and change in place of use proposed in Transfer Application T-11241 are approved.*
2. *The right to the use of the water is restricted to beneficial use at the place of use described, and is subject to all other conditions and limitations contained in Certificate 79011 and any related decree.*
3. *Water right certificate 79011 is cancelled. A new certificate will be issued describing that portion of the right not affected by this transfer.*
4. *The quantity of water diverted at the new point of diversion shall not exceed the quantity of water lawfully available at the original point of diversion.*
5. *Water use measurement conditions:*
 - a. *Before water use may begin under this order, the water user shall install a totalizing flow meter, or, with prior approval of the Director, another suitable measuring device, at each point of diversion.*
 - b. *The water user shall maintain the meters or measuring devices in good working order.*
 - c. *The water user shall allow the Watermaster access to the meters or measuring devices; provided however, where the meters or measuring devices are located within a private structure, the Watermaster shall request access upon reasonable notice.*
6. *Prior to diverting water, the water user shall install a fish screening and/or by-pass device, as appropriate, at the new point of diversion consistent with the Oregon Department of Fish and Wildlife's (ODFW) design and construction standards. Prior to installation, the water user shall obtain written approval from ODFW that the required screen and/or by-pass device meets ODFW's criteria. Prior to submitting a Claim of Beneficial Use, the water user must obtain written approval from ODFW that the required screening and/or by-pass*

device was installed to the state's criteria. The water user shall maintain and operate the fish screen and/or by-pass device, as appropriate, at the point of diversion consistent with ODFW's operational and maintenance standards.

7. *The former place of use of the transferred right shall no longer receive water under the right.*
8. *The approved changes shall be completed and full beneficial use of the water shall be made on or before **October 1, 2012**. A Claim of Beneficial Use prepared by a Certified Water Right Examiner shall be submitted by the applicant to the Department within one year after the deadline for completion of the changes and full beneficial use of the water.*
9. *When satisfactory proof of the completed changes is received, a new certificate confirming the right transferred will be issued.*

Dated at Salem, Oregon this 1 day of July 2011.

Dwight French, Water Right Services Administrator, for
PHILLIP C. WARD, DIRECTOR

This Preliminary Determination was prepared by Teri Hranac. If you have questions about the information in this document, you may reach me at 503-986-0881 or Teri.K.Hranac@wrд.state.or.us.
