Application for Water Right Instream Transfer

Part 1 of 5 - Minimum Requirements Checklist

This transfer application will be returned if Parts 1 through 5 and all required attachments are not completed and included.

For questions, please call (503) 986-0900, and ask for Transfer Section.

FOR ALL INSTREAM TRANSFER APPLICATIONS

Che	ck all ite	ms included with this application. $(N/A = Not Applicable)$
\boxtimes		Part 1 – Completed Minimum Requirements Checklist.
\boxtimes		Part 2 – Completed Map Checklist.
\boxtimes		Part 3 – Completed Instream Transfer Application – Applicant Information and Signature.
\boxtimes		Part 4 – Completed Instream Transfer Application – Water Right Information. Please include a separate Part 4 for each water right. List all water right certificates to be transferred here: 46843, 62741, 62742, 62743, 63794, 63795, 63796.
\boxtimes		Part 5 – Completed Instream Transfer Application - Proposed Instream Use Information.
		Attachments:
		Completed Instream Transfer Application Map.
\boxtimes		Completed Evidence of Use Affidavit and supporting documentation.
\boxtimes		Fees – Amount enclosed: \$ \$2250 (\$2125 for instream transfer + \$125 for reimbursement estimate). See the Department's Fee Schedule at www.wrd.state.or.us or call (503) 986-0883. Note: Instream transfers are considered both a change in place of use and character of use. In addition, an automatic 50% fee waiver applies to all instream transfers.
	⊠ N/A	Affidavit(s) of Consent.
	⊠ N/A	Supplemental Form D – For water rights served by or issued in the name of an irrigation district. Complete when the transfer applicant is not the irrigation district.
		Land Use Notice - Notice of the intent to file an instream transfer application must be provided to each affected local government along the proposed reach. Copies of the notices must be enclosed with the instream transfer application. RECEIVED
		JUL 1 3 2011
		WATER RESOURCES DEPT SALEM, OREGON
	WEAR	(For Staff Use Only) RE RETURNING YOUR APPLICATION FOR THE FOLLOWING REASON(S):
	1	plication fee not enclosed/insufficient Map not included or incomplete
	La	nd Use Form not enclosed or incomplete Land use notice not included or incomplete
		ditional signature(s) required Part is incomplete
		xplanation
	Statt: _	503-986-0 Date://

Your transfer application will be returned if any of the map requirements listed below are not met.

		sure that the transfer application map you submit includes all the required items and the existing water right map. Check all boxes that apply.
	⊠ N/A	Certified Water Right Examiner (CWRE) Stamp and Original Signature. For list of CWREs see http://www1.wrd.state.or.us/pdfs/cwre_listing.pdf .
		OR
\boxtimes	□ N/A	Waiver of requirement that map be prepared by a CWRE. Completed map waiver form is signed by the Department's Regional Manager and included in the application. The map must still meet Department mapping requirements described below.
	⊠ N/A	If more than three water rights are involved, separate maps are needed for each water right.
		Permanent quality printed with dark ink on white or clear paper or film.
		The size of the map can be $8\frac{1}{2} \times 11$ inches, $8\frac{1}{2} \times 14$ inches, or up to 30 x 30 inches. For 30 x 30 inch maps, three (3) paper copies and an electronic copy in a .pdf, .tiff or .jpg format are required.
		A north arrow, a legend, and scale.
		The scale of the map must be: $1 \text{ inch} = 400 \text{ feet}$, $1 \text{ inch} = 1,320 \text{ feet}$, the scale of the Final Proof/Claim of Beneficial Use Map (the map used when the permit was certificated), the scale of the county assessor map if the scale is not smaller than $1 \text{ inch} = 1,320 \text{ feet}$, or a scale that has been pre-approved by the Department.
		Township, Range, Section, quarter-quarter, DLC, Government Lot, and other recognized public land survey lines.
		Tax lot boundaries (property lines) are required. Tax lot numbers are recommended.
		Major physical features including rivers and creeks showing direction of flow, lakes and reservoirs, roads, and railroads.
		Major water delivery system features from the point(s) of diversion/appropriation such as main pipelines, canals, and ditches.
		Existing place of use that includes separate hachuring for each water right, priority date and use including number of acres in each quarter-quarter section, government lot, or in each quarter-quarter section as projected within government lots, donation land claims, or other recognized public land survey subdivisions. If less than the entirety of the water right is being changed, a separate hachuring is needed for lands left unchanged.
		Existing diversion point(s) with distance and bearing or coordinates from a recognized survey corner. This information can generally be found in your water right certificate or permit.

Part 4 of 5 - Water Right Information

Please use a separate Part 4 for each water right being changed. See instructions at http://www.wrd.state.or.us/OWRD/PUBS/forms.shtml.

CERTIFICATE # <u>46843</u>								
Name on Certificate: Preston and Lillian Lindhorst								
Date(s) of Priority: 1875								
Source(s) of Water to be Affected by the Transfer: Fifteenmile Creek								
Description of Water Delivery System								
System capacity: .027 cubic feet per second (cfs) OR								
gallons per minute (gpm)								
Describe the current water delivery system or the system that was in place at some time within the last five years. Include information on the pumps, canals, pipelines and sprinklers used to divert, convey and apply the water at the authorized place of use. Certificate 46843 is currently in the last year of a 5-year instream lease (please see IL-590). Prior to that, the water delivery system included a pump and approximately 11 heads of Rainbird 30 sprinklers.								
Other Water Rights								
Are there other water right certificates, water use permits or ground water registrations associated with the "from" lands? ☐ Yes ☒ No								
If YES, list the certificate, water use permit, or ground water registration numbers:								
Pursuant to ORS 540.510, any "layered" water use such as an irrigation right that is supplemental to a primary right proposed for transfer must be included in the transfer or be cancelled. Any change to a ground water registration must be filed separately in a ground water registration modification application.								
1 11272

in this transfer are curently in the last year of a 3-year histream lease (please	<u>see 11-390) .</u>
Note: New instream water rights are generally (but not always) additive to instreat established under ORS 537.348 (instream transfer application process) and ORS 5 of conserved water) and replace a portion of instream water rights established under (state agency application process) or ORS 537.346 (conversion of minimum perent with an earlier priority date.	37.470 (allocation er ORS 537.341
Is it your intent to have the proposed instream water right transfer be additive to ar right established under ORS 537.348 and ORS 537.470 and replace a portion of ar right established under ORS 537.341 and ORS 537.346 with an earlier priority dat	ny instream water
	tent below:
If the proposed conversion would add to the amounts of an existing instream water established under ORS 537.341 or 537.346, provide documentation demonstrating instream flows are necessary. Supporting documentation should include informati Oregon Dept. of Fish and Wildlife (ODFW) (fish life), Dept. of Environmental Qu (pollution abatement), and/or Parks and Recreation Dept. (recreation).	why additional on from the
Is the requested instream flow intended to exceed the estimated average naturoccurring from the drainage system?	ral flow or level
No; OR	
Yes (Provide supporting documentation that demonstrates why additional flor for the public use requested.); OR	ows are significant
Yes, and it is presumed that flows that exceed the estimated average natural take levels are significant because:	flow or natural
The requested flow does not exceed the maximum amount of any instread application applied for under ORS 537.341 (state agency instream water process) for the same reach or portion thereof, and the requested public upublic use as the afore mentioned instream water right application, and	right application
For the specified time period that flows are requested to exceed the estim natural flow or lake level, the stream is in an ODFW flow restoration price copy of the priority watershed map indicating the specific watershed involuded with the application. Priority watershed maps may be found on page; or	ority watershed. A blved should be
The stream is listed as water quality limited and DEQ has provided scient that demonstrates that increased flows would improve water quality. The information provided by DEQ should be included with the transfer application.	escientific
For a Time Limited Instream Transfer, please answer the following:	RECEIVED
☐ The time-limited instream transfer is for a specific number of years:	
Begin Year to End Year	JUL 1 3 2011
Time-limited instream transfer is to terminate based upon other conditions:	WATER RESOURCES DEPT SALEM. OREGON

Conditions:	
Conditions.
