# Part 2 of 4 - Transfer Application Map Checklist

Your transfer application will be returned if any of the map requirements listed below are not met.

		sure that the transfer application map you submit includes all the required items and he existing water right map. Check all boxes that apply.
$\boxtimes$	N/A	Certified Water Right Examiner (CWRE) Stamp and Original Signature. For a list of CWREs, see <a href="http://www1.wrd.state.or.us/pdfs/cwre_listing.pdf">http://www1.wrd.state.or.us/pdfs/cwre_listing.pdf</a> . CWRE stamp and signature are not required for temporary changes and substitutions.
	N/A	If more than three water rights are involved, separate maps are needed for each water right.
$\boxtimes$		Permanent quality printed with dark ink on white or clear paper or film.
$\boxtimes$		The size of the map can be $8\frac{1}{2} \times 11$ inches, $8\frac{1}{2} \times 14$ inches, or up to 30 x 30 inches. For 30 x 30 inch maps, three (3) paper copies and an electronic copy in a .pdf, iff or 10 format are required.
$\boxtimes$		A north arrow, a legend, and scale.  Aug 1 1 2011
$\boxtimes$		The scale of the map must be: 1 inch = 400 feet, 1 inch = 1,320 feet, the scale of the Final Proof/Claim of Beneficial Use Map (the map used when the permit was centificated), the scale of the county assessor map if the scale is not smaller than 1 inch = 1,320 feet, or a scale that has been pre-approved by the Department.
$\boxtimes$		Township, Range, Section, 1/4 1/4, DLC, Government Lot, and other recognized public land survey lines.
$\boxtimes$		Tax lot boundaries (property lines) are required. Tax lot numbers are recommended.
$\boxtimes$		Major physical features including rivers and creeks showing direction of flow, lakes and reservoirs, roads, and railroads.
$\boxtimes$		Major water delivery system features from the point(s) of diversion/appropriation such as main pipelines, canals, and ditches.
$\boxtimes$		Existing place of use that includes separate hachuring for each water right, priority date, and use including number of acres in each quarter-quarter section, government lot, or in each quarter-quarter section as projected within government lots, donation land claims, or other recognized public land survey subdivisions. If less than the entirety of the water right is being changed, a separate hachuring is needed for lands left unchanged.
$\boxtimes$	□ N/A	Proposed place of use that includes separate hachuring for each water right, priority date, and use including number of acres in each quarter-quarter section, government lot, or in each quarter-quarter section as projected within government lots, donation land claims, or other recognized public land survey subdivisions.
$\boxtimes$		Existing point(s) of diversion or well(s) with distance and bearing or coordinates from a recognized survey corner. This information can be found in your water right certificate or permit.
	N/A	If you are proposing a change in point(s) of diversion or well(s), show the proposed location and label it clearly with distance and bearing or coordinates. If GPS coordinates are used, latitude-longitude coordinates may be expressed as either degrees-minutes-seconds with at least one digit after the decimal (example – 42°32'15.5") or degrees-decimal with five or more digits after the decimal (example – 42.53764°).

#### **CERTIFICATE # 37339**

RECEIVED

System capacity: 6.90 cubic feet per second (cfs) **OR** 

gallons per minute (gpm)

WATER RESOURCES DEPT SALEM, OREGON

AUG 0 3 2011

Describe the current water delivery system or the system that was in place at some time within the last five years. Include information on the pumps, canals, pipelines and sprinklers used to divert, convey and apply the water at the authorized place of use. A 1330-foot pivot (1), a 1520-foot half pivot (2), 6 wheel lines, each 1200 feet in length and miscellaneous hand lines make up the irrigation system. Two 50 hp pumps at POD 1 pump water from the Snake River to relay pumps that increase the water pressure in 14" pipelines for delivery to the irrigation system. These pumps and pipelines are connected with the system from Certificate No. 51472 so that any combination of pumps can be used to pump the water for the two permits. PODs 1 and 2 are less than 3/4 of a mile apart on the common water source of the Snake River with no other property ownerships in between.

Table 1. Location of Authorized and Proposed Point(s) of Diversion (POD) or Appropriation (POA)

(Note: If the POD/POA name is not specified on the certificate, assign it a name or number here.)

	here other water right certificates, water use permits or ground water registrations associated the "from" or the "to" lands?   Yes  No
If YI	ES, list the certificate, water use permit, or ground water registration numbers:
a prii to a į	uant to ORS 540.510, any "layered" water use such as an irrigation right that is supplemental to mary right proposed for transfer must be included in the transfer or be cancelled. Any change ground water registration must be filed separately in a ground water registration modification cation.
For St	<b>Ibstitution</b> (ground water supplemental irrigation will be substituted for surface water primary irrigation)
	and water supplemental Permit or Certificate #; ace water primary Certificate #;
For a	change from Supplemental Irrigation Use to Primary Irrigation Use
Ident	ify the primary certificate to be cancelled. Certificate #
For a	change in point(s) of appropriation (well(s)) or additional point(s) of appropriation:
	Well log(s) are attached for each authorized and proposed well(s) that are clearly labeled and associated with the corresponding well(s) in Table 1 above and on the accompanying application map. ( <b>Tip</b> : You may search for well logs on the Department's web page at: <a href="http://apps2.wrd.state.or.us/apps/gw/well_log/Default.aspx">http://apps2.wrd.state.or.us/apps/gw/well_log/Default.aspx</a> )
OR	
	Describe the construction of the authorized and proposed well(s) in Table 3 for any wells that do not have a well log.

## Table 3. Construction of Point(s) of Appropriation

Any well(s) in this listing must be clearly tied to corresponding well(s) described in Table 1 and shown on the accompanying application map. Failure to provide adequate information is likely to delay the processing of your transfer application. For proposed wells, we recommend that you consult a licensed well driller, geologist, or certified water right examiner for the proper information needed to complete the table.

Proposed or Authorized POA Name or Number	Is well already built? (Yes or No)	If an existing well, OWRD Well ID Tag No. L	Total well depth	Casing Diameter	Casing Intervals (feet)	Seal depth(s) (intervals)	Perforated or screened intervals (in feet)	Static water level of completed well (in feet)	Source aquifer (sand, gravel, basalt, etc.)	Well - specific rate (cfs or gpm). If less than full rate of water right
