Additional remarks: Based on previous discussions with Dorothy Pedersen, we understand that the Department may allow the transfer of the portion of the original use from the ram pump that was dedicated to outdoor use, including irrigation of a "garden". Based on information provided by the ram pump manufacturer, we have estimated that rate to be 4.8 gpm or 0.01 cfs. This rate will be adequate to meet our request for nursery use of 2.7 acres.

The previous owner of the property, Ron Schrenk, purchased the property in 1979 from his father and owned it for about 20 years prior to selling it to Jerry Ingle. Ron's father had purchased the land from his father in 1960. The place of use shown on the transfer application map represents the area historically irrigated to grow pasture or farm crops and to irrigate landscaping at the house, based on Ron Schrenk's historical knowledge. The current owner, Jerry Ingle, has continued to use water for irrigation of nursery stock on the same amount of acreage historically irrigated. Signed statements from Ron Schrenk and Jerry Ingle regarding the historic use of the right for irrigation are attached to this application.

**For Place of Use or Character of Use Changes**

Are there other water right certificates, water use permits or ground water registrations associated with the "from" or the "to" lands?  Yes  No

If YES, list the certificate, water use permit, or ground water registration numbers: NA

Pursuant to ORS 540.510, any "layered" water use such as an irrigation right that is supplemental to a primary right proposed for transfer must be included in the transfer or be cancelled. Any change to a ground water registration must be filed separately in a ground water registration modification application.

**For Substitution** (ground water supplemental irrigation will be substituted for surface water primary irrigation)

Ground water supplemental Permit or Certificate #NA;  
Surface water primary Certificate # NA

**For a change from Supplemental Irrigation Use to Primary Irrigation Use**

Identify the primary certificate to be cancelled. Certificate # NA

**For a change in point(s) of appropriation (well(s)) or additional point(s) of appropriation:**

Well log(s) are attached for each authorized and proposed well(s) that are clearly labeled and associated with the corresponding well(s) in Table 1 above and on the accompanying application map. (**Tip:** You may search for well logs on the Department's web page at: [http://apps2.wrd.state.or.us/apps/gw/well\\_log/Default.aspx](http://apps2.wrd.state.or.us/apps/gw/well_log/Default.aspx))

**OR**

Describe the construction of the authorized and proposed well(s) in Table 3 for any wells that do not have a well log.

**Table 3. Construction of Point(s) of Appropriation**

Any well(s) in this listing must be clearly tied to corresponding well(s) described in Table 1 and shown on the accompanying application map. Failure to provide adequate information is likely to delay the processing of your transfer application. For proposed wells, we recommend that you consult a licensed well driller, geologist, or certified water right examiner for the proper information needed to complete the table.
